Instructions for Form FTB 3885L

Depreciation and Amortization

General Information

A Purpose

Depreciation is the annual deduction allowed to recover the cost or other basis of business or income producing property with a determinable useful life of more than one year. Land is not depreciable.

Amortization is similar to the straight-line method of depreciation in that an annual deduction is allowed to recover certain costs of intangibles over a fixed period of time.

In general, California law follows federal law for assets placed in service on or after January 1, 1987, for personal income tax. See R&TC Section 17250.

Use form FTB 3885L to compute depreciation and amortization allowed as a deduction on Form 568. Attach form FTB 3885L to Form 568.

B Calculation Methods

California did not allow depreciation under the federal ACRS for years prior to 1987.

Specific Line Instructions

Line 1 – California depreciation for assets placed in service after December 31, 1995 and amortization for property placed in service after December 31, 1995.

Complete column (a) through column (i) for each asset or group of assets or property placed in service after December 31, 1995. Enter the column (f) totals on line 1(f). Enter the column (i) totals on line 1(i).

Line 2 – California depreciation for assets placed in service before January 1, 1996

Enter total California depreciation for assets placed in service prior to January 1, 1996, taking into account any differences in asset basis or differences in California and federal tax law.

Line 4 – California amortization for assets placed in service before January 1, 1996. Enter total California amortization for assets placed in service prior to January 1, 1996, taking into account any differences in asset basis or differences in California and federal tax law.

California has conformed to IRC Section 197 relating to the amortization of intangibles as of January 1, 1994. No deduction is allowed under this section for any taxable year beginning prior to January 1, 1994. If a taxpayer made an election for federal purposes under the Revenue Reconciliation Act of 1993 (P.L. 103-66), relating to the election to have amendments apply to property acquired after July 25, 1991, or relating to an elective binding contract exception, a separate election for state purposes is not allowed under paragraph (3) of subdivision (e) of R&TC Section 17024.5, and the federal election is binding. In the case of an intangible that was acquired in a taxable year beginning before January 1, 1994, and that is amortized under IRC Section 197, the amount to be amortized cannot exceed the adjusted basis of that intangible as of the first day of the first taxable year beginning on or after January 1, 1994. This amount must be amortized ratably over the period beginning with the first month of the first taxable year beginning on or after January 1, 1994, and ending 15 years after the month in which the intangible was acquired.

Assets with a Federal Basis Different from California Basis

Some assets placed in service on or after January 1, 1987, will have a different adjusted basis for California purposes due to the credits claimed or accelerated write-offs of the assets. Review the list of depreciation and amortization items in the instructions for Schedule CA (540), California Adjustments — Residents, and Schedule CA (540NR), California Adjustments — Non-residents or Part-Year Residents. If the LLC has any other adjustments to make, get FTB Pub. 1001, Supplemental Guidelines to California Adjustments, for more information.
