General Information

California has established four types of economic development areas (EDAs) that have related tax incentives:

- Enterprise Zones;
- Local Agency Military Base Recovery Areas (LAMBRAs);
- Manufacturing Enhancement Areas (MEAs); and
- The Targeted Tax Area (TTA).

A business may qualify for special deductions and credits if it operates or invests in a trade or business located within the geographic boundaries of one of these EDAs.

California statutes require the Franchise Tax Board (FTB) to provide information to the California Legislature and the Trade and Commerce Agency (TCA) regarding the number of businesses using the EDA tax incentives, types of EDA tax incentives being used, and the EDAs in which the businesses are claiming the tax incentives.

Note: To help us meet this requirement, please complete items A through J on form FTB 3809, Targeted Tax Area Deduction and Credit Summary, as applicable.

For information about:

- Enterprise zone tax incentives, get FTB 3805Z, Enterprise Zone Business Booklet;
- LAMBRA tax incentives, get FTB 3807, Local Agency Military Base Recovery Area Business Booklet; or

- The MEA hiring credit, get FTB 3808, Manufacturing Enhancement Area Business Booklet.

Conformity. In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277), the Miscellaneous Trade and Technical Corrections Act of 1999 (Public Law 106-36), and the Ticket to Work and Work Incentives Improvement Act of 1999 (Public Law 106-170).

Income vs. Taxable. Effective for years beginning on or after January 1, 2000, references to "income year" were replaced with "taxable year" in all provisions of the Bank and Corporation Tax Law (B&CTL), the Administration of the Franchise and Income Tax Law (AFITL), and the Personal Income Tax Law (PITL). Therefore, all forms and instructions have been revised to replace the term "income year" with "taxable year." When referring to an income measurement period beginning before January 1, 2000, the term "taxable year" should be interpreted to mean "income year" as that term applied for those periods prior to January 1, 2000.

A Purpose

Use this booklet to determine the correct amount of deductions and credits that a business may claim for operating or investing in a trade or business within the TTA.

Complete the worksheets in this booklet for each deduction or credit for which the business is eligible. Then enter the total deductions and credits on form FTB 3809.

B How to Claim Deductions and Credits

To claim any TTA deduction or credit, the business **must attach** form FTB 3809 (included in this booklet) to its California tax return.

Attach a separate form FTB 3809 for each business you operate or invest in that is located within the TTA.

To assist with the processing of the tax return, indicate that the business operates or invests within the TTA by doing the following:

- Form 540 and Form 540NR filers:** Write "TTA" in the top left margin of Form 540 or Form 540NR, Side 1.
- Form 100 filers:** Claim TTA tax incentives on Form 100, line 14, line 20, and line 24 through line 27, as applicable.

Form 100S filers: Claim TTA tax incentives on Form 100S, line 12, line 19, and line 23 through line 26, as applicable.

Form 100W filers: Claim TTA tax incentives on Form 100W, line 14, line 20, and line 24 through line 27, as applicable.

Form 109 filers: Check the "Yes" box for the enterprise zone, LARZ, LAMBRA, MEA, or TTA question G on the top of Form 109, Side 1.

Note: Keep all completed worksheets and supporting documents for your records.

C Targeted Tax Area Designation

The purpose of the TTA is to stimulate development in a selected economically-depressed area. Special tax incentives are available to qualified entities and individuals that operate or invest in a business located within the designated TTA.

Businesses operating within the TTA do not need to pre-qualify or receive prior approval to take advantage of these special tax incentives.

All of the incorporated cities in Tulare County and portions of the unincorporated areas of Tulare County received final designation as the TTA effective November 1, 1998. The eight incorporated cities in Tulare County are:

- Dinuba
- Exeter
- Farmersville
- Lindsay
- Porterville
- Tulare
- Visalia
- Woodlake

Caution: The special tax incentives available to businesses operating within the TTA can **only** be taken for costs paid or incurred on or after November 1, 1998, and before the designation expires.

D Important Considerations

TTA tax incentives apply only to:

- Qualified assets purchased and placed in service on or after November 1, 1998;
- Qualified employees hired on or after November 1, 1998; and/or
- Net operating losses (NOLs) for taxable years beginning on or after November 1, 1998.

Eligibility

To qualify for any of the tax incentives described above, a taxpayer must meet both of the following requirements:

1. Be engaged in a trade or business within the TTA; and
2. Be engaged in a line of business described in Standard Industrial Classification Codes 2000 to 2099, inclusive; 2200 to 3999, inclusive; 4200 to 4299, inclusive; 4500 to 4599, inclusive; and 4700 to 5199, inclusive, of the Standard Industrial Classification Manual published by the United States Office of Management and Budget, 1987 Edition.

Note: Although the FTB implemented the new Principal Business Activity (PBA) code chart that is based on the North American Industry Classification System (NAICS), 1997 Edition, the Standard Industrial Classification must be used when qualifying for the TTA tax incentives. The PBA and NAICS codes cannot be used.

In the case of any pass-through entity, the determination of whether a taxpayer is a qualified taxpayer for the business expense deduction, hiring credit, and sales or use tax credit, is made at the entity level. Any business expense deduction, hiring credit, or sales or use tax credit that is allowed to the pass-through entity is also passed through to the partners or shareholders.

E Geographic Boundaries

The geographic boundaries of the TTA are used to determine whether tax incentives are available to a business in a specified location. Further information about the geographic boundaries of the TTA, Form TCA EZ1 (Enterprise Zone, LAMBRA, and Targeted Tax Area Hiring Voucher), or other information not related to the tax incentives is available from:

Part I Hiring Credit

Qualified employers conducting a trade or business within the TTA may claim the hiring credit for a new employee who:

- Was hired on or after November 1, 1998, (see General Information C, Targeted Tax Area Designation);
- Spends at least 90% of his or her work time (for the qualified employer) on activities directly related to the conduct of a trade or business located within the TTA;
- Performs at least 50% of the work (for the qualified employer) within the boundaries of the TTA; **and**
- Was at the time of hire:
 1. A person receiving or eligible to receive subsidized employment, training, or services funded by the federal Job Training Partnership Act (JTPA) or its successor;
 2. A person eligible to be a voluntary or mandatory registrant under the Greater Avenues for Independence Act of 1985 (GAIN) or its successor;
 3. A member of a targeted group as defined in the federal Work Opportunity Tax Credit (WOTC) or its successor;
 4. An economically disadvantaged individual 14 years of age or older;
 5. A qualified dislocated worker;
 6. A disabled individual eligible for, enrolled in, or who completed a state rehabilitation plan;
 7. A service-connected disabled veteran;
 8. A veteran of the Vietnam era;
 9. A veteran who recently separated from military service;
 10. An ex-offender;
 11. A person eligible for or a recipient of:
 - Federal Supplemental Security Income (SSI) benefits;

- Aid to Families with Dependent Children (AFDC);
 - Food stamps; or
 - State and local general assistance;
12. A Native American; or
 13. A resident of the TTA.

Employers hiring qualified employees should get Form TCA EZ1 from the local agency responsible for verifying employee eligibility. Contact the local TTA coordinator for more information on the local agency and verification process.

The percentage of wages used to calculate the credit depends on the number of years the employee works for the employer in the TTA. The applicable percentage begins at 50% and declines 10% for each year of employment. After the fifth year of employment, no credit can be generated.

Wages that qualify for the hiring credit are those wages paid or incurred to hire a qualified employee for the consecutive 60-month period beginning on the first day the employee commenced employment with the employer. For an employer that operates a business that has regularly occurring seasonal or intermittent employment decreases and increases, reemployment of an employee does not constitute commencement of employment for the qualified wages test.

The credit is based on the smaller of the following:

- The actual hourly rate paid or incurred by the employer for work performed by the employee during the taxable year; or
- **150% of the minimum hourly wage** established by the Industrial Welfare Commission.

Where the California minimum wage is higher than the federal minimum wage, the California minimum wage is used for purposes of computing the TTA hiring credit. The established minimum wage after March 1, 1998, is \$5.75 per hour. Effective January 1, 2001, the minimum wage will increase by \$.50. The new minimum wage will be \$6.25 per hour. For purposes of computing the TTA hiring credit, 150% of the minimum wage is \$8.62 per hour (\$9.37 beginning January 1, 2001).

Example:

Ray Smith was hired January 1, 2000.

Ray's hourly rate for Month 1 was \$7.00. At the beginning of Month 2, his hourly rate increased to \$8.00. For Month 3, Ray's hourly rate increased to \$9.00. The hourly rate that qualifies for the credit is limited to 150% of the minimum wage, or currently \$8.62 per hour.

Month(s)	Hours x per month	Hourly rate	= Qualified wages per month
1	175	\$7.00	\$1,225.00
2	170	8.00	\$1,360.00
3	170	8.62	\$1,465.40

Credit Limitations

- The amount of hiring credit claimed may not exceed the amount of tax on the TTA business income in any year. Use Worksheet VI on Side 2 of form FTB 3809 to compute the credit limitation.
- In the case where the business is qualified to take the TTA hiring credit as well as another credit (e.g., enterprise zone, MEA, or LAMBRA) for the same wage expense, the business may only claim one credit for that wage expense.
- The business may carry over any unused hiring credit to future years until the credit is used. In the case of an S corporation, 2/3 of the credit is lost and the remaining 1/3 can be carried over if it cannot be used in the current year.

For additional information about the treatment of credits for S corporations, see Part VI.

Record Keeping

Retain a copy of Form TCA EZ1 to substantiate an individual's eligibility as a "qualified employee." In addition, for each qualified employee, keep a schedule of the first 60 months of employment showing (at least):

- Employee's name;
- Date the employee was hired;
- Number of hours the employee worked for each month of employment;
- Smaller of the hourly rate of pay for each month of employment or 150% of the minimum wage;
- Location of the employee's job site and duties performed;
- Records of any other federal or state subsidies received for hiring the qualified employee; and
- Total qualified wages per month for each month of employment.

Line 1, column (b) through column (d) – Enter in the appropriate column, the qualified wages paid or incurred during the taxable year to each employee listed in column (a).

Line 2, column (b) through column (d) – Add the amounts in each column.

Line 3, column (b) through column (d) – Multiply the total in each column of line 2 by the percentage in each column.

- Part III, line 10, column (b) for S corporations; or
- Part IV, line 12, column (b) for corporations and S corporations subject to paying only the minimum franchise tax.

Section B – Credit Recapture

The employer must recapture the amount of credit attributable to an employee's wages if the employer terminates the employee at any time during the longer of:

- The first 270 days of employment (whether or not consecutive); or
- 90 days of employment plus 270 calendar days.

Employers of seasonal employees must recapture the amount of credit attributable to a seasonal employee's wages if the employer terminates employment before the completion of 270 days of employment during the 60-month period beginning the day the employee commences employment with the employer.

A "day of employment" means any day for which the employee receives wage compensation (including a paid sick day, holiday, or vacation day).

The employer must add to the current year's tax the amount of credit claimed in the year of termination and all prior years in which the credit was claimed for the terminated employee.

Note: The credit recapture does not apply if the termination of employment was:

- Voluntary on the part of the employee;
- In response to misconduct of the employee;
- Caused by the employee becoming disabled (unless the employee was able to return to work and the employer did not offer to reemploy the individual);

- Carried out so that other qualified individuals could be hired, creating a net increase in both the number of qualified employees and the number of hours worked; or
- Due to a substantial reduction in the employer's trade or business operations.

Note: Enter the name(s) of employee(s) even if one of the above exceptions to recapture is met.

Line 1, column (a) – Enter the name of the terminated employee(s). Attach additional schedule(s) if necessary.

Line 1, column (b) – Enter the amount of credit recapture for each employee listed in column (a).

Line 2 – Enter the amount from line 2, column (b) on form FTB 3809, Side 1, Part V, line 5.

Also, include the amount of hiring credit recapture on your California tax return or schedule as follows:

- Form 100, Schedule J, line 5;
- Form 100S, Schedule J, line 5 and Schedule K-1 (100S), line 23;
- Form 100W, Schedule J, line 5;
- Form 109, Schedule K, line 4;
- Form 540, line 36;
- Form 540NR, line 45;
- Form 541, line 21b and Schedule K-1 (541), line 11e;
- Form 565, Schedule K, line 22 and Schedule K-1 (565), line 22; or
- Form 568, Schedule K, line 22 and Schedule K-1 (568), line 22.

Indicate that you included the hiring credit recapture on your tax return by writing "FTB 3809" in the space provided on the schedule or form.

Partnerships and limited liability companies (LLCs) treated as partnerships must identify the recapture amounts for their partners and members on Schedule K-1 (565 or 568).

S corporation shareholders must recapture the portion of the credit that was previously claimed, based on the terminated employee's wages. S corporations must also identify the recapture amount for shareholders on Schedule K-1 (100S). This amount will differ from the amount recaptured by the S corporation on Form 100S, Schedule J.

Part II Sales or Use Tax Credit

Individuals, estates or trusts, partnerships, and LLCs treated as partnerships may claim an annual credit equal to the sales or use tax paid or incurred to purchase up to \$1 million of qualified property per taxable year.

Corporations may claim a credit equal to the sales or use tax paid or incurred to purchase up to \$20 million of qualified property per taxable year. Individuals who are S corporation shareholders may claim their pro-rata share of pass-through credit to the extent the S corporation paid or incurred sales or use tax to purchase up to \$1 million of qualified property. See the example in the third column of this page.

Qualified property is machinery or machinery parts used to:

- Manufacture, process, fabricate, or otherwise assemble a product;
- Produce renewable energy resources; or
- Control air or water pollution.

In addition, qualified property is:

- Data processing and communications equipment including, but not limited to, computers, computer-automated drafting systems, copy machines, telephone systems, and fax machines; and
- Motion picture manufacturing equipment central to production and postproduction including, but not limited to, cameras, audio recorders, and digital image and sound processing equipment.

The business must use the property **exclusively** within the boundaries of the TTA. Qualified property must be purchased and placed in service after the TTA received its designation.

The use tax paid or incurred on purchases of property outside California qualifies for the credit only if property of a comparable quality and price was not timely available in California at the time it was purchased.

Leased Property

The sales tax paid or incurred on qualified property being purchased using a financial (conditional sales) contract qualifies for the sales or use tax credit.

To determine whether the lease qualifies as a purchase rather than a true lease, see Revenue Ruling 55-540, 1955-2 C.B. 39, and FTB Legal Ruling 94-2, March 23, 1994.

Credit Limitations

- The amount of sales or use tax credit claimed may not exceed the amount of tax on the TTA business income in any year. After completing Worksheet II on page 7, use Worksheet VI on Side 2 of form FTB 3809 to compute the credit limitation.
- Any unused credit may be carried over and applied against the tax on TTA business income in future years until exhausted.
- In the case where the business is qualified to take the TTA sales or use tax credit as well as another state credit (e.g. enterprise zone sales or use tax credit, manufacturers' investment credit, or LAMBRA sales or use tax credit) for the same piece of property, the business may only claim one credit for that property.

Depreciation

Any taxpayer that claims this credit cannot increase the basis of the qualified property with respect to the sales or use tax paid or incurred in connection with the purchase of qualified property.

To compute the difference between California and federal depreciation, use the following forms or schedules:

- Form 100 or Form 100W filers – FTB 3885, Corporation Depreciation and Amortization;
- Form 100S filers – Schedule B (100S), S Corporation Depreciation and Amortization;
- Form 109 filers – Form 109, Schedule J, Depreciation. **Note:** Exempt trusts use FTB 3885F, Depreciation and Amortization;
- Form 540 and Form 540NR filers – FTB 3885A, Depreciation and Amortization — Individuals;
- Form 541 filers – FTB 3885F, Depreciation and Amortization — Fiduciaries;
- Form 565 filers – FTB 3885P, Depreciation and Amortization — Partnerships; or
- Form 568 filers – FTB 3885L, Depreciation and Amortization — Limited Liability Companies.

Record Keeping

To support the sales or use tax credit claimed, keep all records that document the purchase of the qualified property, such as the sales receipt and proof of payment. Additionally, keep all records that identify or describe:

- The property purchased (such as serial numbers, etc.);

- The amount of sales or use tax paid or incurred on its purchase;
- The location where it is used; and
- If purchased from a manufacturer located outside California, records to substantiate that property of comparable quality and price was not timely available for purchase in California.

Example:

XYZ Inc., an S corporation, purchases qualified property for \$20 million (\$20 m.). The sales tax rate is 6% (.06) and the entity-level tax rate is 1.5% (.015).

The credit allowed XYZ Inc. and the depreciable basis of the qualified property for XYZ Inc. are figured as follows:

		Depreciable basis
Qualified property	\$20 m.	\$20 m.
Sales tax paid (\$20 m. x .06)	1.2 m.	+1.2 m.
Sales or use tax credit allowed XYZ Inc.	1.2 m.	<u>(1.2 m.)</u>

Depreciable basis of qualified property for XYZ Inc. \$20 m.

Credit allowed to offset the entity-level tax (\$1.2 m. x 1/3) \$0.4 m.

XYZ Inc. has two 50% shareholders. The credit passed through to the shareholders and the depreciable basis of the qualified property for the shareholders are figured as follows:

		Depreciable basis
Qualified property (purchased by XYZ Inc.)	\$20 m.	\$20 m.
Sales tax (paid by XYZ Inc.)	1.2 m.	+1.2 m.
Maximum qualified costs for sales or use tax credit	1 m.	
Sales or use tax credit allowed the shareholders (\$1 m. x .06)	.06 m.	<u>(.06 m.)</u>

Depreciable basis of qualified property for the shareholders \$21.14 m.

Total amount of credit allowed the shareholders \$0.06 m.

Note: Each shareholder is allowed a passed through credit of \$30,000 (.06 m. ÷ 2 = .03 m.) sales or use tax credit.

**Instructions for Worksheet II
— Sales or Use Tax Credit**

Line 1, column (c) – Enter the amount of sales or use tax paid or incurred on the property listed in column (a).

Line 2, column (b) – Add the amounts in line 1, column (b).

Caution: This amount cannot exceed \$1 million for individuals, estates and trusts, partnerships, or LLCs treated as partnerships or \$20 million for corporations per taxable year. When computing the amount of credit to pass through to S corporation shareholders, use \$1 million.

Line 2, column (c) – Add the amounts in line 1, column (c). Enter the total here and on form FTB 3809, Side 2, Worksheet VI, as follows:

- Part II, line 9B, column (b) for corporations, individuals, and estates and trusts;

- Part IV, line 13, column (b) for corporations and S corporations subject to paying only the minimum franchise tax.

Caution: Only the sales or use tax paid or incurred on the cost of qualified property up to the limitations in column (b) previously stated, may be claimed as a credit.

Part III Business Expense Deduction

Certain businesses conducting a qualified trade or business within the TTA may elect to treat 40% of the eligible cost of qualified property as a business expense rather than a capital expense. For the year the property is placed in service, the business may deduct the eligible cost in the current year rather than depreciate it over several years.

Note: The TTA business expense deduction is not allowed for estates and trusts.

Qualified property is any recovery property that is IRC Section 1245 property which includes, but is not limited to, tangible personal property (excluding buildings) and most equipment and furnishings acquired by purchase for exclusive use within the TTA. Office supplies and other small nondepreciable items are not included.

The maximum aggregate cost applicable to the 40% deduction the business may claim in any taxable year is determined by the number of taxable years that have elapsed since the TTA received its final designation. The TTA received final designation on November 1, 1998.

The maximum aggregate cost is:

Taxable year of designation	\$100,000
1st taxable year after designation . .	\$100,000
2nd taxable year after designation . .	\$75,000
3rd taxable year after designation . .	\$75,000
Each remaining taxable year after designation	\$50,000

Election

The business must elect to treat the cost of qualified property as a business expense in the year the property is first placed in service. However, the TTA business expense deduction is not allowed if the property was:

- Transferred between members of an affiliated group;
- Acquired as a gift or inherited;
- Traded for other property;
- Received from a personal or business relation as defined in IRC Section 267 or 707(b); or
- Described in IRC Section 168(f).

Note: The TTA business expense deduction must be claimed by making an election on the original return filed, and thus cannot be claimed on an amended return. Such an election cannot be revoked without the written consent of the FTB.

A husband and wife filing separate returns may each claim 50% of the allowable deduction. In the case of a partnership, the 40% limitation applies to the partnership and to each partner.

Depreciation

If the business elects to deduct the amount computed in Worksheet III, Section A, as a business expense, the depreciable basis of the property must be reduced by the deduction.

Subtract the amount claimed as a business expense from the basis or cost of the property and depreciate the remaining basis or cost.

Normal depreciation is allowed on the cost of the property in excess of the expensed amount, starting with the taxable year following the taxable year the property was placed in service.

Corporations may not claim the additional first-year depreciation allowed under R&TC Section 24356 on any item of property if any portion of it was deducted as a business expense. All other taxpayers cannot claim the deduction allowed under IRC Section 179 on any item of property if any portion of it was deducted as a business expense.

To compute the difference between California and federal depreciation, use the following forms or schedules:

- Form 100 and Form 100W filers – FTB 3885, Corporation Depreciation and Amortization;
- Form 100S filers – Schedule B (100S), S Corporation Depreciation and Amortization;
- Form 109 filers – Form 109, Schedule J, Depreciation;
- Form 540 and Form 540NR filers – FTB 3885A, Depreciation and Amortization — Individuals;
- Form 565 filers – FTB 3885P, Depreciation and Amortization — Partnerships; or
- Form 568 filers – FTB 3885L, Depreciation and Amortization — Limited Liability Companies.

Part IV Doing Business Totally Within the Targeted Tax Area or Within and Outside the Targeted Tax Area

TTA tax credits are limited to the tax on business income attributable to operations within the TTA. The TTA deduction (NOL) is limited to business income attributable to operations within the TTA. If the business is located within and outside the TTA, the taxpayer must determine the portion of total business operations that are attributable to the TTA.

Business Income vs. Nonbusiness Income

Only business income is apportioned to the TTA to determine the incentive limitation. TTA tax credits are limited to tax on business income attributable to the operations within the TTA. The TTA deduction (NOL) is limited to business income attributable to operations within the TTA.

Business income is defined as income arising from transactions and activities in the regular course of the trade or business. Business income includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the regular trade or business operations. Nonbusiness income is all income other than business income. Get Title 18 Cal. Code Reg. Section 25120 for further references and examples of nonbusiness income.

For an individual, business income includes, but is not limited to, California business income or loss from Schedules C, D, D-1 (or federal Form 4797, Sales of Business Property, if you did not have to file a Schedule D-1), E, and F, as well as wages. Be sure to include casualty losses, disaster losses, and any business deductions reported on federal Form 1040 Schedule A as itemized deductions.

In essence, all income which arises from the conduct of trade or business operations of a taxpayer is business income.

Note: If you elected to carry back part or all of your current year disaster loss under IRC Section 165(i)(1), do not include the amount of the loss that was carried back in your current year business income for the TTA.

Pass-through entities must report to their shareholders, beneficiaries, partners, and members:

1. The distributive (or pro-rata for S corporations) share of the business income apportioned to the TTA; and
2. The distributive (or pro-rata for S corporations) share of the business capital gains and losses apportioned to the TTA included in item 1.

These items should be reported using the appropriate California schedules listed below:

- Schedule K-1 (100S), line 23;
- Schedule K-1 (541), line 11e;
- Schedule K-1 (565), line 22; or
- Schedule K-1 (568), line 22.

Apportionment

Business income is apportioned to the TTA by multiplying the total California business income of the taxpayer by a fraction, the numerator which is the property factor plus the payroll factor, and the denominator which is two. Loss is apportioned to the TTA by multiplying the taxpayer's net business operating loss from all sources by a fraction, the numerator which is the property factor plus the payroll factor, and the denominator which is two.

Property Factor

Property is defined as the average value of all real and tangible personal property owned or rented by the taxpayer and used during the taxable year to produce business income.

Note: Property is included in the factor if it was available for use during the taxable year.

Property owned by the business is valued at its original cost. Generally, **original cost** is the basis of the property for federal income tax purposes (prior to any federal adjustment) at the time of acquisition by the business, adjusted for subsequent capital additions or improvements and partial dispositions because of sale or exchange. Allowance for depreciation is not considered.

Rented property is valued at eight times the net annual rental rate. The net annual rental rate for any item of rented property is the total rent paid for the property, less total annual subrental rates paid by subtenants.

The **numerator** of the property factor is the average value of the taxpayer's real and tangible personal property owned or rented by the taxpayer and used within the TTA during the taxable year to produce TTA business income (column (b)).

When determining **income** apportionment on Worksheet IV, Section A, the **denominator** of the property factor is the total average value of all the taxpayer's real and tangible personal property owned or rented and used during the taxable year within California (column (a)).

When determining **loss** apportionment on Worksheet IV, Section B, the **denominator** of the property factor is the total average value of the taxpayer's real and tangible personal property owned or rented and used during the year in all business operation locations.

Payroll Factor

Payroll is defined as the total amount paid to the business's employees for compensation for the production of business income during the taxable year.

Compensation means wages, salaries, commissions, and any other form of

remuneration paid directly to employees for personal services.

Payments made to independent contractors or any other person not properly classified as an employee are excluded.

Compensation Within the TTA.

Compensation is considered to be within the TTA if any one of the following tests is met:

- The employee's services are performed within the geographical boundaries of the TTA; or
- The employee's services are performed within and outside the TTA, but the services performed outside the TTA are incidental to the employee's service within the TTA.

Note: Incidental means any temporary or transitory service performed in connection with an isolated transaction.

Compensation Within and Outside the TTA.

If the employee's services are performed within and outside the TTA, the employee's compensation will be attributed to the TTA if:

- The employee's base of operations is within the TTA; or
- There is no base of operations in any other part of the state in which some part of the service is performed, but the place from which the service is directed or controlled is within the TTA.

Base of operations is the permanent place from which employees start work and customarily return in order to receive instruction from the taxpayer or communications from their customers or persons; to replenish stock or other material; to repair equipment; or to perform any other functions necessary in the exercise of their trade or profession at some other point or points.

The **numerator** of the payroll factor is the total compensation paid to employees for working within the TTA during the taxable year (column (b)).

When determining **income** apportionment on Worksheet IV, Section A, the **denominator** of the payroll factor is the taxpayer's total compensation paid to employees working in California (column (a)).

When determining **loss** apportionment on Worksheet IV, Section B, the **denominator** of the payroll factor is the taxpayer's total compensation paid to employees working in all business operation locations.

Corporations Which File a Combined Report.

Business income for each corporation doing business in the TTA will be its business income assigned to California (see FTB Pub. 1061 for further information on combined reports and entity income assignment). The TTA property and payroll factors used in the determination of TTA income includes only the taxpayer's California amounts in the denominator.

Example – Computation of TTA income assigned to each entity operating within the TTA:

Parent Corporation A has two subsidiaries, B and C. Corporations A and B operate within the TTA. The combined group operates within and outside California and apportions its income to California using Schedule R. The combined group's business income apportioned to California was \$1,000,000. Corporation A and B's share of business income assigned to California is \$228,000 and \$250,000 respectively. Corporation A and B's separate TTA and separate California property and payroll factor amounts are shown on this page.

Business income apportioned to the TTA is determined as follows:

	A	B
Property Factor		
TTA Property	\$1,000,000	\$ 800,000
California Property	\$1,000,000	\$1,200,000
Apportionment %	100%	66.66%
Payroll Factor		
TTA Payroll	\$ 800,000	\$ 800,000
California Payroll	\$ 800,000	\$1,000,000
Apportionment %	100%	80%
Average Apport. %	100%	73.33%
(Property + Payroll Factors)		
	2	
Apportioned Business Income	\$ 228,000	\$ 250,000
TTA Income	\$ 228,000	\$ 183,333

Use Worksheet IV, Section A, Income Apportionment, to determine the amount of business income apportioned to the TTA. The TTA business income determines the amount of the tax incentives that can be used.

Only California source business income is apportioned to the TTA. A taxpayer's TTA business income is its California apportioned business income multiplied by the specific TTA apportionment percentage.

The TTA property and payroll factors used in the determination of apportionable business income include only the taxpayer's California amounts in the denominator.

Instructions for Worksheet IV — Apportionment

Section A – Income Apportionment

Note: If the business operates solely within the TTA and all its property and payroll are solely within the TTA, you do not have to complete this worksheet. Enter 100% (1.00) on line 4 of Sections A and B, column (c).

Section B – Loss Apportionment

Use Worksheet IV, Section B, Loss Apportionment, to determine your net operating loss apportioned to the TTA. A taxpayer's TTA net operating loss is its net business operating loss from all sources multiplied by the specific TTA apportionment percentage computed in Worksheet IV, Section B.

The TTA property and payroll factors used in the determination of the apportioned business net operating loss include worldwide amounts in the denominator.

Also, those factors with zero balances in the totals of column (a) will not be included in the computation of the average apportionment percentage. For example, if the taxpayer does not have any payroll within or outside the TTA, then the average apportionment percentage would be computed by dividing line 3 by one instead of by two as normally instructed.

Also, those factors with zero balances in the totals of column (a) will not be included in the computation of the average apportionment percentage. For example, if the taxpayer does not have any payroll within or outside the TTA, then the average apportionment percentage would be computed by dividing line 3 by one instead of by two as normally instructed.

Part V Net Operating Loss (NOL) Computation and Loss Limitations

A TTA NOL generated by a business that operates or invests within the TTA can be carried forward for 15 years but may not be carried back. In addition, up to 100% of the NOL generated in the TTA can be carried forward.

The business cannot generate NOLs from activities within the TTA until the first taxable year beginning on or after the date the TTA is officially designated. The TTA received final designation on November 1, 1998.

Limitation. A TTA NOL deduction can only offset business income attributable to operations within the TTA.

Election. Taxpayers **must** elect and designate the carryover category (general or specific, enterprise zone, LAMBRA, or TTA NOL) on the original return for the year of a loss and file form FTB 3809 for each year in which a TTA NOL deduction is being taken. The election is **irrevocable**.

Note: If you elect the TTA NOL deduction, you are prohibited by law from carrying over any other type of NOL from this year.

To determine which type of NOL will provide the greatest benefit, businesses that have general or specific, enterprise zone, LAMBRA, or TTA NOLs, or that may qualify for the special NOL treatment should estimate future income and complete Worksheet V and the following forms or worksheets if applicable:

- FTB 3805Q, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Corporations;
- FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Individuals, Estates and Trusts;
- FTB 3805Z, Enterprise Zone Business Booklet, Worksheet VI; or
- FTB 3807, Local Agency Military Base Recovery Area Business Booklet, Worksheet V.

Alternative Minimum Tax. Taxpayers claiming a TTA NOL deduction must determine their NOL for alternative minimum tax purposes. Use Schedule P (100, 100W, 540, 540NR, or 541) to compute the NOL for alternative minimum tax purposes.

S Corporations. TTA NOLs incurred prior to becoming an S corporation cannot be used against S corporation income. See IRC Section 1371(b).

However, an S corporation is allowed to deduct a TTA NOL incurred after the “S” election is made. An S corporation may use the NOL as a deduction against income subject to the 1.5% entity-level tax (3.5% for financial S corporations). The expenses (and income) giving rise to the loss are also passed through to the shareholders in the year the loss is incurred.

NOL Carryover Amount – Nonapportioning Corporations Operating Totally Within the TTA

For taxpayers with all payroll and property within the TTA, the NOL carryover is determined by computing the business loss that results from business activity within the TTA.

NOL Carryover Amount – Corporations Operating Within and Outside the TTA

If the business is located within and outside the TTA, the loss amount available for carryover is determined by apportioning the total business loss of the corporation to the TTA pursuant to the provisions of R&TC Chapter 17 (commencing with Section 25101), with certain modifications to the apportioning factors. The apportionment factors include the property and payroll factors, and compare TTA property and payroll to total property and payroll. This apportionment factor calculation is done on Worksheet IV, Section B. The loss carryover is deducted from income apportioned by each business to the TTA in subsequent years. This calculation is done on Worksheet V, Section C.

Corporations that are members of a unitary group filing a combined report must separately compute loss carryover for each corporation in the group (R&TC Section 25108) using their individual apportionment factors.

Unlike the NOL treatment on a federal consolidated return, a loss carryover for one member included in a combined report may not be applied to the intrastate apportioned income of another member included in a combined report.

For water’s-edge purposes, each corporation’s NOL carryover is limited to the amount determined by recomputing the income and factors of the original worldwide combined reporting group as if the water’s-edge election had been in force for the year of the loss. The TTA NOL carryover may not be increased as a result of the recomputation.

Instructions for Income or Loss Worksheet

Use the Income or Loss Worksheet on page 15 to determine the amount to enter on:

- Worksheet V, Section A, line 1;
- Worksheet V, Section C, line 1 and line 6 (Form 540 and Form 540NR filers); and
- Worksheet VI, Part I, line 1 and line 3.

Do not include disaster losses in any amounts used in the table.

Only California source business income is apportioned to the TTA. A taxpayer’s TTA business income is its California apportioned business income computed using Schedule R, multiplied by the specific TTA apportionment percentage computed using Worksheet IV, Section A.

The first step is to determine which portion of the taxpayer’s net income is “business income” and which portion is “nonbusiness income,” since only business income may be apportioned to the TTA. See Part IV, Doing Business Totally Within the Targeted Tax Area or Within and Outside the Targeted Tax Area, on page 10 for a complete discussion of business and nonbusiness income.

Business income or loss reported on federal Form 1040 Schedule C, C-EZ, E, F, and other schedules are reported on line 6 through line 9. Line 11 and line 12 report business gains or losses reported on Schedule D and Schedule D-1. All business income and losses should be adjusted for any differences between California and federal amounts as shown on the Schedule CA (540 or 540NR).

Located Within and Outside the TTA and California

Line 6 – Line 9

If your business operation reported on federal Form 1040 Schedule C, C-EZ, E, F, or other schedule is within and outside the TTA and California, get Schedule R and complete line 1 through line 13b. Enter the figure on Schedule R, line 13b in column (a) of this worksheet. To determine the percentage figure in column (b), complete Worksheet IV, Section A. Enter the figure on Worksheet IV, Section A, line 4 in column (b) of this worksheet.

Note: When computing Schedule R, disregard any reference to Form 100, Form 100W, Form 565, or Form 568. Also, disregard any reference to Schedule R-3, Schedule R-4, or Schedule R-5, and skip line 11.

Nonresidents that have an apportioning business that operates within the TTA should have already computed Schedule R, and can use those amounts when that schedule is referenced. Residents that have an apportioning business will not have completed a Schedule R for California income tax purposes since they are taxed on income from all sources. However, in order for residents to determine their California source business income for purposes of the TTA calculation, they also must complete a Schedule R.

Line 11 and Line 12

If the gain or loss reported on Schedule D or Schedule D-1 (as adjusted on Schedule CA (540 or 540NR)) was attributed to an asset used in an activity conducted within and outside the TTA and California, get Schedule R and complete Schedule R-1. Multiply the gain or loss reported by the percentage on Schedule R-1, line 5 and enter the result in column (a). To determine the percentage figure in column (b), complete Worksheet IV, Section A. Enter the figure on Worksheet IV, Section A, line 4 in column (b) of this worksheet.

Part I Individual Income and Expense Items

Wages

Taxpayers with wages from a company located within and outside the TTA must determine the TTA wage income by entering the percentage of their time in column (b) (during the period for which the wages entered on line 1 were earned) that they worked within the TTA. This percentage must be determined based on their record of time and events such as a travel log or entries in a daily planner.

Part II Pass-Through Income or Loss

Multiple Pass-Through Entities

If you are a shareholder, beneficiary, partner, or member in multiple pass-through entities

with businesses located within and outside the TTA from which you received TTA tax incentives, see the example below for computing business income in the TTA.

Example:

Pass-through entity	Trade or business income from Schedule K-1 (100S, 541, 565, or 568)	Entity's TTA apportionment percentage	TTA apportioned income
ABC, Inc.	\$40,000	80%	\$32,000
A, B & C	30,000	10%	3,000
ABC, LLC	10,000	50%	<u>5,000</u>
			\$40,000

Part III Taxpayer's Trade or Business

Business Income or Loss

Use business income or loss from federal Form 1040 Schedules C, C-EZ, E, and F, plus California adjustments from Schedule CA (540 or 540NR) for each trade or business. Also, include business capital gains and losses from Schedule D and business gains and losses from Schedule D-1.

Line 14

If you are computing the TTA NOL and the result on the Income or Loss Worksheet, line 14, column (c) is a **negative** amount, enter this amount on Worksheet V, Section A, line 1. **Note:** If the amount is positive, you do not have a TTA NOL.

If you are computing the TTA business income and the result on the Income or Loss Worksheet, line 14, column (c) is a **positive** amount and:

- You have TTA NOL carryovers, enter the amount on Worksheet V, Section C, line 1 and line 6 (skip line 2 through line 5). Also enter the amount from the Income or Loss Worksheet, line 14, column (c) on Worksheet VI, Part I, line 1 and line 3 (skip line 2) if you have TTA credits; or
- You do not have TTA NOL carryovers but you do have TTA credits or credit carryovers, enter the amount on Worksheet VI, Part I, line 1 and line 3 (skip line 2).

Note: If the amount is negative, you do not have any business income attributable to the TTA and you cannot utilize any TTA NOL carryover, credit(s), or credit carryover(s) in the current taxable year.

Instructions for Worksheet V — Net Operating Loss Computation and Loss Limitations

Individuals and exempt trusts with a current year loss should complete Section A. Corporations with a current year loss complete Section B. Individuals, exempt trusts, and corporations with current year income and a prior year TTA NOL carryover complete Section C.

Section A – Computation of Current Year NOL — Individuals and Exempt Trusts

Use this section to compute the TTA NOL to be carried over to future years by individuals and exempt trusts. Complete Section A **only** if you have a current year loss.

You must complete form FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Individuals, Estates and Trusts, before you can compute the allowable TTA loss.

To compute the TTA NOL, separate business income and deductions from nonbusiness income and deductions. See Part IV for a complete discussion of business and nonbusiness income.

Section B – Computation of Current Year NOL — Corporations

Use this section to compute the TTA NOL to be carried over to future years for corporations. Complete Section B **only** if the corporation has a current year loss.

You must complete form FTB 3805Q, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Corporations, before you can compute the allowable TTA loss.

Section C – Computation of NOL Carryover and Carryover Limitations

Use this section to compute the TTA NOL deduction for individuals, exempt trusts, and corporations. The TTA NOL deduction is used to reduce current year income from the TTA.

Line 1 – See Part IV for a discussion of business and nonbusiness income.

Note to Form 540 and Form 540NR filers: Be sure to include casualty losses, disaster losses, and any business deductions reported on Schedule A as itemized deductions.

Exception: If you elected to carry back part or all of your current year disaster loss under IRC Section 165(i)(1), do not include the amount of the loss that was carried back in your current year business income for the TTA.

Line 2 – In modifying your income, deduct your capital losses only up to your capital gains. Enter as a positive number any net capital losses included in line 1.

Line 3 – Corporations must reduce income by the disaster loss deduction and the deduction for excess net passive income.

Line 6 – This is your modified taxable income (MTI). You may reduce this amount by your TTA NOL deduction. Your TTA NOL deduction may not be larger than your MTI. If your MTI is a loss in the current year or if it limits the amount of NOL you may use this year, you must carry over the NOL to future years.

Line 7 – Enter the amount from line 6 in column (d). If this amount is zero or negative, transfer the amounts from line 8 and line 9, column (b) to line 8 and line 9, column (e). Go to line 10.

Line 8 and Line 9 – Enter the amounts on line 8 and line 9 as positive numbers.

In column (c), enter the smaller of the amount in column (b) or the amount in column (d) from the previous line.

In column (d), enter the result of subtracting column (c) from the balance on the previous line in column (d).

In column (e), enter the result of subtracting the amount in column (c) from the amount in column (b), as applicable.

Example:

(b) Carry-over from prior year	(c) Amount deducted this year	(d) Balance available to offset losses	(e) TTA NOL carryover
		\$5,000	
\$ 500	\$ 500	4,500	\$ 0

Line 10 – Enter the amount of your current year NOL in column (e). For individuals and exempt trusts, enter the amount from Section A, line 7. For corporations, enter the amount from Section B, line 7.

Line 11 – Total the amounts in column (b), column (c), and column (e). Enter the totals from column (b), column (c), and column (e) on form FTB 3809, Side 1, line 3a, line 3b, and line 3c, accordingly.

Your TTA NOL deduction for 2000 is the total of column (c). Enter this amount on your California tax return or schedule as follows:

- Form 100, line 20;
- Form 100S, line 19;
- Form 100W, line 20;
- Form 109, line 3 or line 11;
- Schedule CA (540), line 21e, column B; or
- Schedule CA (540NR), line 21e, column B.

Part VI Computation of Credit Limitations

Credit Limitations. The amount of credit you can claim on your California tax return is limited by the amount of tax attributable to TTA business income. Use Worksheet VI on form FTB 3809, Side 2 to compute this limitation.

If a taxpayer owns an interest in a disregarded business entity, the amount of the credit that can be utilized is limited to the difference between the taxpayer's regular tax computed with the income of the disregarded entity, and the taxpayer's regular tax computed without the income of the disregarded entity. For more information on disregarded business entities, get Form 568, Limited Liability Company Tax Booklet.

Partnerships must allocate the credit among the partners according to the partners' distributive share as determined in a written partnership agreement (R&TC Section 17039(e)).

Credits you are otherwise eligible to claim may be limited. Do not apply credits against the minimum franchise tax (corporations, limited partnerships, limited liability partnerships, LLCs, and S corporations), the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

Refer to the credit instructions in your tax booklet for more information.

Members of a Unitary or Combined Group.

The TTA credits cannot be allocated or otherwise transferred to another taxpayer, even if the other taxpayer is a member of a unitary or combined group or otherwise affiliated with the taxpayer that earned the credit. For example, a subsidiary corporation that generates a TTA hiring credit cannot allocate the credit to the parent corporation.

S Corporations and the Application of TTA Credits. An S corporation may use its TTA credits to reduce TTA tax at both the corporate and shareholder levels.

An S corporation may use 1/3 of the TTA credits, to reduce the tax on the S corporation's TTA business income. In addition, S corporation shareholders may claim their pro-rata share of the entire amount of the TTA credits calculated under the Personal Income Tax Law.

Example: In 2000, an S corporation qualified for a \$3,000 TTA hiring credit. The S corporation will be able to use 1/3 of the credit ($\$3,000 \times 1/3 = \$1,000$) to offset the tax on the corporation's TTA income.

The S corporation will also pass-through a \$3,000 credit to its shareholders to offset their individual tax (computed under the Personal Income Tax Law) on TTA income.

S corporations should attach form FTB 3809 to Form 100S, California S Corporation

Franchise or Income Tax Return, to claim the tax credits. If form FTB 3809 is not attached to the return, the credits may be disallowed.

The investors need to attach Form 3809 to their returns.

Carryover. If the amount of credit available this year exceeds your TTA tax, you may carry over any excess credit to future years until exhausted. Apply the carryover to the earliest taxable year(s) possible. In no event can the credit be carried back and applied against a prior year's tax.

For S corporations, the amount of the 1/3 credit that is in excess of the 1.5% entity-level tax (3.5% for financial S corporations) in the current year may also be carried forward and used in future years to offset the S corporation entity-level business tax. See the instructions for Worksheet VI, Part III for more information.

Credit Code Number. You must use credit code number **210** to claim the TTA hiring and sales or use tax credits on your tax return. Using an incorrect code number may cause a delay in allowing the credit(s).

Instructions for Form FTB 3809

Qualified Taxpayer's SIC Code Activity –

Enter the SIC code of the establishment that qualifies you to take this credit. If your enterprise has more than one establishment, and if more than one of the establishments qualifies you to take this credit, enter the SIC code that best represents your primary qualifying establishment.

Do not enter the PBA code from your state or federal tax return. PBA codes are based on the NAICS and they are not the same as SIC codes. **See General Information D, Important Considerations.**

Instructions for Worksheet VI — Computation of Credit Limitations

Note: Worksheet VI is on Side 2 of form FTB 3809.

Partnerships and LLCs treated as partnerships do not complete Worksheet VI. The partners and members of these types of entities should complete Worksheet VI in order to determine the amount of TTA credits that they may claim on their California tax return. S corporations and their shareholders must complete Worksheet VI.

Reporting Requirements of S Corporations, Estates and Trusts, Partnerships, and LLCs Treated as Partnerships

- Report to shareholders, beneficiaries, partners, and members, the distributive or pro-rata share of business income, losses, and deductions apportioned to the TTA; and
- Separately state any distributive or pro-rata share of business capital gains and losses apportioned to the TTA included in the amount above.

S corporations: Complete only Part I and Part III of this worksheet if your entity-level tax before credits is more than the minimum franchise tax.

Corporations and S corporations subject to the minimum franchise tax only: Complete only Part IV of this worksheet.

All others: Complete Part I and Part II of this worksheet.

Part I

Note: For filers with NOLs or NOL carryovers.

- Complete Worksheet V first if you have a current year NOL or an NOL carryover.
- Then complete Worksheet VI of Side 2 of the FTB 3809 if you have any TTA credits.

If you do not have a current year NOL or any NOL carryovers:

- Individuals: Go to the Income or Loss Worksheet in Part V. Follow the instructions there. Enter the amount from the Income or Loss Worksheet, line 14, column (c) on Worksheet VI, Part I, line 1 and line 3 (skip line 2).
- Corporations: Follow the instructions for line 1 below.

Line 1 – Enter all trade or business income. See Part IV on page 10 for the definition of business income.

Line 2 – If your business is located entirely within the TTA, enter 1.

Specifically, this percentage is the apportionment percentage computed by the entity using Worksheet IV, Apportionment, and represents the percentage of the entity's business attributable to the TTA.

Line 6a – Compute the tax as if the TTA taxable income represented all of your taxable income.

Individuals: Use the tax table or tax rate schedule in your tax booklet for your filing status. **Exempt organizations:** Use the applicable tax rate in your tax booklet.

Corporations and S corporations: Use the applicable tax rate.

Example (Determination of TTA Income for Shareholders, Partners, or Members of Pass-Through Entities):

Ray Smith is vice president of ABC, Inc., an S corporation that has two locations: one within the TTA and one outside the TTA. Eighty percent (80%) of the S corporation's business is attributable to the TTA.

Note: This percentage was determined by ABC, Inc. using Worksheet IV when ABC's S corporation return (Form 100S) was prepared.) Ray divides his time equally (50%/50%) between the two offices of ABC, Inc.

Mary Smith (Ray's spouse) works for ABC, Inc. at its office located within the TTA.

Ray and Mary Smith have the following items of California income and expense for the 2000 tax year:

Ray's salary from ABC, Inc. \$100,000
 Mary's salary from ABC, Inc. 75,000
 Interest on savings account 1,000
 Dividends 3,000
 Schedule K-1 (100S) from ABC, Inc.:
 Ordinary income 40,000
 TTA business expense deduction . . (5,000)*
 Ray's unreimbursed employee
 expenses from federal Schedule A . (2,000)

*The TTA business expense deduction is a separately stated item on Schedule K-1 (100S), line 8.

The Smith's TTA income (total amount to be reported on line 3) is computed as follows:

Ray's TTA salary (\$100,000 x 50%) . \$50,000
 Mary's TTA salary (\$75,000 x 100%) . 75,000
 Pass-through ordinary income from
 ABC, Inc. (\$40,000 x 80%) 32,000
 TTA business expense deduction
 from ABC, Inc. (5,000)
 Ray's unreimbursed employee business
 expenses (\$2,000 x 50%) (1,000)
 Total TTA income
 (Worksheet VI, Part I, line 3) . . . \$151,000

Note: The standard deduction and personal or dependency exemptions are not included in the computation of TTA income since they are not related to trade or business activities.

Ray and Mary must compute the tax (to be entered on Worksheet VI, Part I, line 6a) on the total TTA income of \$151,000 (as if it represents all of their income). Using the tax rate schedule in their tax booklet for filing status married filing joint, the 2000 tax figured on \$151,000 is \$10,534.

Line 6b – Corporations and S corporations:

If the amount on line 6b is the minimum franchise tax (\$800), you cannot use your TTA credits this year. You should complete Part IV of the worksheet to figure the amount of credit carryover.

Part II

Use Part II of Side 2 of the FTB 3809 if you are a corporation, individual, estate, or trust. Corporations and S corporations that are subject to paying only the minimum franchise tax, go to Part IV of Side 2 of the FTB 3809.

Line 8A, column (e) – Enter the amount from line 7. This is the amount of limitation based on the tax on TTA business income.

Line 8A, column (f) – Enter the amount of credit that is used on Schedule P (100, 100W, 540, 540NR, or 541), column (b). The amount cannot be greater than the amount on line 8A, column (e) or the amount computed on line 8B, column (d). Enter this amount on form FTB 3809, Side 1, line 1a.

Line 8B, column (b) – Enter the amount of the current year credit that was computed on Worksheet I, Section A, line 4.

Line 8B, column (c) – Enter the amount of the total prior year credit carryover. This is the amount of credit that was previously figured on Worksheet I, Section A, in the prior year, minus the amount that was allowed to be taken on the prior year return.

Line 8B, column (d) – Add the amount of the current year credit on line 8B, column (b) and the amount of the total prior year carryover on line 8B, column (c).

Line 8B, column (e) – Compare the amounts on line 8A, column (e) and line 8A, column (f). Enter the smaller amount.

Line 8B, column (g) – Subtract the amount on line 8B, column (e) from the amount on line 8B, column (d). Enter the result on line 8B, column (g). This is the amount of credit that can be carried over to future years.

Note: This carryover includes both the Schedule P (100, 100W, 540, 540NR, or 541) limitation and the limitation based on TTA business income.

Line 9A, column (e) – Subtract the amount on line 8B, column (e) from the amount on line 8A, column (e). If the result is zero, your remaining credits are limited and must be carried over to future years. In this case, enter the amount from line 9B, column (d) on line 9B, column (g).

Line 9A, column (f) – Enter the amount of credit that is used on Schedule P (100, 100W, 540, 540NR, or 541), column (b). The amount cannot be greater than the amount on line 9A, column (e) or the amount computed on line 9B, column (d). Enter this amount on form FTB 3809, Side 1, line 1b.

Line 9B, column (b) – Enter the amount of the current year credit that was computed on Worksheet II, line 2, column (c).

Line 9B, column (c) – Enter the amount of the total prior year credit carryover. This is the amount of credit that was previously figured on Worksheet II in the prior year, minus the amount that was allowed to be taken on the prior year return.

Line 9B, column (d) – Add the amount of the current year credit on line 9B, column (b) and the amount of the total prior year carryover on line 9B, column (c).

Line 9B, column (e) – Compare the amounts on line 9A, column (e) and line 9A, column (f). Enter the smaller amount.

Line 9B, column (g) – Subtract the amount on line 9B, column (e) from the amount on line 9B, column (d). Enter the result on line 9B, column (g). This is the amount of credit that can be carried over to future years.

Note: This carryover includes both the Schedule P (100, 100W, 540, 540NR, or 541) limitation and the limitation based on TTA business income.

Example: Part II

The ABC Business has \$8,000 of tax. The business computed a credit limitation based on the TTA income of \$7,000 on Worksheet VI, line 7. The business has the following credits:

Hiring credit — \$500 and a \$300 carryover from a prior year
 Sales or use tax credit — \$9,000

Worksheet VI, Part II would be computed as follows:

Part II Limitation of Credits for Corporations, Individuals, and Estates and Trusts. See instructions.

	(a) Credit name	(b) Credit amount	(c) Total prior year carryover	(d) Total credit (add col. (b) and col. (c))	(e) Limitation based on TTA business income	(f) Used on Schedule P (can never be greater than col. (d) or col. (e))	(g) Carryover (col. (d) minus col. (e))
8	Hiring credit	A			7,000	800	
		B	500	300	800	800	–0–
9	Sales or use tax credit	A			6,200	6,200	
		B	9,000	–0–	9,000	6,200	2,800

Part III

Use Part III of Side 2 of the FTB 3809 only if you are an S corporation.

Line 10 and Line 11, column (b) – Enter the amounts of current year credits that were computed on Worksheet I and Worksheet II in column (b) for line 10 and line 11, as applicable. Also enter this amount on Form 100S:

- Schedule C, line 4; and
- Schedule K, line 13.

You may need to adjust your Schedule C (100S) to reflect the TTA tax limitation (Part I, line 7) to your credits after completing this worksheet.

Line 10 and Line 11, column (c) – Multiply the amounts on line 10 and line 11, column (b) by 1/3. Enter these amounts in column (c). The amounts in column (c) are the maximum amounts of the current year credits that may be used by the S corporation to offset its 1.5% entity-level tax (3.5% for financial S corporations).

Line 10 and Line 11, column (d) – Enter the amounts of total prior year credit carryover. These are the credit amounts that were previously figured on the prior year Worksheet I and Worksheet II, minus the amounts that were allowed to be taken on the prior year return.

Line 10 and Line 11, column (e) – Add the amounts of the current year credits in column (c) and the total prior year carryovers in column (d).

Line 10 and Line 11, column (f) – Enter the credit amounts that were used by the S corporation in the current year to offset its 1.5% entity-level tax (3.5% for financial S corporations). Enter the amounts in column (f) for line 10 and line 11 on form FTB 3809, Side 1, line 1a and line 1b, as applicable.

Line 10 and Line 11, column (g) – Subtract the amount in column (f) for each line from the amounts in column (e). These are the credit amounts that can be carried over to future years and used by the S corporation.

Part IV

Use Part IV of Side 2 of the FTB 3809 if you are a corporation or S corporation subject to paying only the minimum franchise tax.

Line 12 and Line 13, column (b) – Enter the amounts of current year credits that were computed on Worksheet I and Worksheet II. **S corporations** may enter only 1/3 of the amounts from Worksheet I and II on line 12, column (b) and line 13, column (b), as applicable.

Line 12 and Line 13, column (c) – Enter the amounts of the total prior year credit carryovers. These are the credit amounts that were previously figured on Worksheet I and Worksheet II in the prior year, minus the amounts that were allowed to be taken on the prior year return. **S corporations** may enter only 1/3 of the amounts from Worksheet I and Worksheet II.

Line 12 and Line 13, column (d) – Add the amounts in column (b) and column (c) for line 12 and line 13. These are the credit amounts that can be carried over to future years.

Standard Industrial Classification Manual, 1987 Edition (Partial Listing)

The Standard Industrial Classification (SIC) Manual is organized using a hierarchical structure, first by division, then by two-digit major groups within each division, then by three-digit industry groups within each major group, and finally by four-digit industry codes within each industry group.

Classification of business activities is based upon establishments, which are defined in the SIC Manual as an economic unit, generally at a single physical location, where business is conducted, or where services or industrial operations are performed. A taxpayer's enterprise may consist of more than one establishment. The SIC Manual provides the following examples of establishments: A factory, mill, store, hotel, movie theater, mine, farm, ranch, bank, railroad depot, airline terminal, sales office, warehouse, or central administrative office. Where distinct and separate economic activities are performed at a single physical location (such as construction activities operated out of the same physical location as a lumber yard), each activity should be treated as a separate establishment where: (1) No one industry description in the SIC Manual includes such combined activities; (2) The employment in each economic activity is significant; and

(3) Separate reports are prepared on the number of employees, their wages and salaries, sales or receipts, property and equipment, and other types of financial data, such as financial statements, job costing, and profit center accounting.

For purposes of this publication, the following SIC codes are listed since only taxpayers with establishments in these industry codes qualify for the TTA tax incentives:

- SIC Codes 2000 through 2099;
- SIC Codes 2200 through 3999;
- SIC Codes 4200 through 4299;
- SIC Codes 4500 through 4599; and
- SIC Codes 4700 through 5199.
