**COMMENTS:**

This bill would require a state agency that collects certain demographic data to use additional collection categories and make the data available to the public.

The August 23, 2007, amendments would make Asian and Pacific Islander each a category. Because the department does not produce reports of this nature, the amendments do not impact the department’s programs or operations. The department’s analysis of the bill as introduced February 9, 2007, still applies.
