SUBJECT: Disaster Loss Deduction/Excess Loss Carryover/August 2009 Los Angeles County Wildfires

SUMMARY

This bill would allow special tax treatment, called disaster loss treatment, for losses sustained as a result of the August 2009 Los Angeles County wildfires.

This analysis will not address the bill's changes to the Property Tax Law, as they do not impact the department or state income tax revenue.

PURPOSE OF THE BILL

According to the author's office, the purpose of this bill is to provide immediate tax relief to individuals and businesses affected by the wildfires.

EFFECTIVE/OPERATIVE DATE

As an urgency measure, this bill would be effective and operative immediately upon enactment.

POSITION

Pending.

ANALYSIS

FEDERAL/STATE LAW

Under federal and state law, a casualty loss is defined as the damage, destruction, or loss of property resulting from an identifiable event that is sudden, unexpected, or unusual. A disaster loss occurs when business or personal property is completely or partially destroyed as a result of a fire, storm, flood, or other natural event in an area declared to be a disaster by the President of the United States.

Table with Board Position (S, SA, N, NA, OUA, NP, NAR, PENDING) and Department Director/Date (Selvi Stanislaus, 02/22/10)

Existing federal and state laws allow an individual taxpayer with a non-business casualty/disaster loss that is not reimbursed, by insurance or otherwise, may deduct such losses to the extent that each loss exceeds \$100 and aggregate net losses for the taxable year exceed 10 percent of adjusted gross income. Additionally, a taxpayer can elect to file an amended return to deduct a casualty loss in the taxable year prior to the loss year to receive a refund more quickly. However, this election only applies to casualty losses occurring in a Presidentially-declared disaster area. This election may be made for any Presidentially-declared disaster prior to passage of any state legislation allowing special carryover treatment because California conforms to federal disaster tax law treatment. The election is not available for a Governor-only declared disaster until enabling state legislation has been enacted.

State tax law¹ identifies specific events as disasters and excess disaster losses are allowed special carry forward treatment. That is, 100 percent of the excess disaster loss may be carried over for up to fifteen taxable years. In addition, for disasters that were the subject of a Governor's proclamation but not the subject of a Presidential disaster declaration, enactment of state law identifying a specific event as a disaster for state tax law purposes authorizes the taxpayer to elect to deduct the disaster loss on the return for the prior taxable year.

PROGRAM BACKGROUND

Governor Arnold Schwarzenegger proclaimed on August 28, 2009, a state of emergency declaring the wildfires that occurred in Los Angeles and Monterey Counties to be a state disaster. President Obama did not declare either one of these fires to be a federal disaster.

THIS BILL

This bill would add the wildfires that occurred in Los Angeles County in August 2009 to the current list of specified disasters under the Personal Income Tax Law and the Corporation Tax Law. This bill would allow taxpayers affected by the wildfires to elect to file an amended return for the prior taxable year to deduct the disaster loss and reduce the prior year tax liability, resulting in an expedited refund. This bill would also allow carry forward treatment for up to 15 taxable years for excess losses sustained as a result of the wildfires.

Specifically, this bill would allow special disaster treatment of losses sustained as a result of this disaster. The \$100 and 10 percent of adjusted gross income limitations in existing law would apply to disaster losses on non-business property.

IMPLEMENTATION CONSIDERATIONS

Implementing this bill would not significantly impact the department's programs or operations.
