#### FEDERAL/STATE LAW

Existing state law, under the Business and Professions Code pertaining to architecture, defines "person" to include any individual, firm, partnership, general corporation, professional corporation, or limited liability partnership.

Existing state law defines "professional services" as any type of professional services that may be lawfully rendered only pursuant to a license, certification, or registration authorized by the Business and Professions Code, the Chiropractic Act, or the Osteopathic Act.

Existing state law under the Uniform Partnership Act defines "professional limited liability partnership services" as the practice of architecture, the practice of public accountancy, the practice of engineering, the practice of land surveying, or the practice of law.

Existing state law under the Uniform Partnership Act defines "registered LLP" and "foreign LLP" to mean a limited liability partnership, other than a limited partnership, that engages in the practice of architecture, public accountancy, engineering, land surveying, or law.

Existing state law imposes an annual tax in an amount equal to the minimum franchise tax (currently \$800) on every LLP organized in this state, registered with the Secretary of State (SOS), or doing business in this state. This annual tax is payable until a notice of cessation or withdrawal of registration is filed with the SOS or the LLP ceases to do business in this state, whichever is later.

Under existing state law, the authority to practice architecture as an authorized professional limited liability partnership service will expire on January 1, 2012.
