THURSDAY, DECEMBER 8, 2022, 9:07 A.M.

---o0o---

CHAIRPERSON YEE: Good morning, everyone.

This is the scheduled time for the meeting of the Franchise Tax Board. And let me ask the Board liaison to please call the roll.

MS. RUBALCAVA: Good morning.

CHAIRPERSON YEE: Good morning, Cristina.

MS. RUBALCAVA: Deputy Member Evans.

MEMBER EVANS: Present.

MS. RUBALCAVA: Member Miller.

MEMBER MILLER: Present.

MS. RUBALCAVA: And Chair-Controller Betty T. Yee.

Yee.

CHAIRPERSON YEE: Here.

Thank you very much.

At least two members or their designated representatives being personally present, there is a quorum and the Franchise Tax Board is now in session.

For those who are able, please stand and join me as we recite the Pledge of Allegiance.

(Pledge of Allegiance was recited in unison.)

CHAIRPERSON YEE: Thank you. And welcome to the Franchise Tax Board’s board meeting. The public has a
right to comment on each agenda item. And if there are any members of the public wishing to speak on an item, please come forward when that item is called, and you will have three minutes to address the Board.

For today's meeting, members of the public who wish to comment via teleconference may call (844) 291-4185. Again, (844) 291-4185. And enter the access code of 6598443; access code 6598443.

Please be aware there is a short delay between the web live stream and the live event. And if there are any members of the public wishing to speak on an item and you are using a translator or a translator service, you will have six minutes to address the Board. All speakers will be asked to identify yourself for the record.

Members, welcome. The first item is the approval of the minutes. We do have the minutes of the September 23, 2022, Board meeting in front of us.

Any comments or questions?

MEMBER MILLER: Move approval.

CHAIRPERSON YEE: Okay. We have a motion by Member Miller to approve the minutes.

MEMBER EVANS: Second.

CHAIRPERSON YEE: Second by Member Evans.

Is there any member of the public wishing to
speak on in this item in person or on the teleconference 
line?

(No response.)

CHAIRPERSON YEE: Seeing no one in the auditorium 
stepping forward, let me see if there's anyone on the 
teleconference line wishing to speak on this item.

PHONE MODERATOR: Members of the public on the 
phone lines, if you would like to place yourself in the 
queue for public comment, as a reminder you may press 1, 
than 0, at this time.

We will go to the line of Christine Grab. Please 
go ahead.

MS. GRAB: Board Member Yee, I was under the 
impression that we had five minutes, normally for the 
annual Taxpayer Bill of Rights meetings, and three 
minutes for other types of meetings. But I was under 
the impression we would have five minutes for this 
meeting.

CHAIRPERSON YEE: Ms. Grab, on this -- on any 
agenda item, you have three minutes to speak.

Do you wish to speak on this item regarding 
approval of the minutes?

MS. GRAB: No. I was regarding -- my question is 
regarding the annual Taxpayer Bill of Rights request.

CHAIRPERSON YEE: Okay. We will get -- return
back to you when we get to that item -- item on the
agenda.

MS. GRAB: Okay. Will we get five minutes?
CHAIRPERSON YEE: Yes, you will.
MS. GRAB: Okay. Great. Thank you.
CHAIRPERSON YEE: Thank you.
Any other members of the public on the
teleconference line?

Seeing none --

PHONE MODERATOR: No additional members are
queuing up at this time.

Please continue.

CHAIRPERSON YEE: Thank you.

We do have a motion and a second.

Without objection, such will be the Board's
order. Thank you.

We'll move on the Item Number 2, and this is a
presentation on a regulation matter for the adoption of
the Annual 2023 Rulemaking Calendar. This is an action
item, members. And we will have Tina Kenzie present the
item.

Good morning.

MS. KENZIE: Thank you and good morning. My name
is Tina Kenzie, and I am a Tax Counsel IV for the FTB's
Legal Division's Technical Resources Bureau.
As required by Government Code Section 11017.6, on a yearly basis, FTB delivers a Board-approved rulemaking calendar to the Office of Administrative Law, providing required information on regulatory items FTB plans to transmit for review and approval as part of the rulemaking process during the year.

The 2023 Rulemaking Calendar in your materials shows the regulation projects FTB staff plans to work on during the 2023 calendar year.

This year we have a new item on the calendar, which is identified on the first page of the materials. This is a project for potential amendments to Sections 23701, 23772, and 23775 through 23778, which will explore updating these regulations to be consistent with statutory law changes related to exempt organizations.

As in the past, this Board's approval of the calendar and any new items identified on it for which staff has not previously received Board approval to begin the informal regulatory process serves as an explicit approval by the Board to allow FTB staff to begin the informal regulatory process and to hold interested parties' meetings for all calendared items.

I now ask for the Board's approval of the 2023 Rulemaking Calendar.

CHAIRPERSON YEE: Thank you very much, Tina, for
MEMBER EVANS: So move.

CHAIRPERSON YEE: Okay. Very well.

MEMBER MILLER: Second.

CHAIRPERSON YEE: Great. We have a motion by

Member Evans; a second by Member Miller.

Let me turn to the members of the public to see
if there's anyone wishing to speak on this item.

We'll start with any members of the public in the
auditorium.

Seeing none approaching the Board, are there any
members of the public on the teleconference line?

PHONE MODERATOR: Members of the public on the
phone line, if you would like to please yourself in
queue for public comment, as a reminder, you may press
1, then 0, at this time.

No members of the public are queuing up at this
time.

Please continue.

CHAIRPERSON YEE: Thank you very much.

So we do have a motion and a second on this item.

Without objection, such will be the Board's
order.
Thank you. Thank you very much.

Next, Members, is Item Number 3. And this is a presentation on a legislative matter. And we will have Denis Armstrong present the item to us.

Good morning, Denis.

MR. ARMSTRONG: Good morning, Madam Chair and Board Members.

My name is Denis Armstrong, and I am the Legislative Director for the Franchise Tax Board.

On an ongoing basis, FTB identifies possible ideas for legislative proposals that can ease tax administration, including the one presented before you today for your consideration.

In addition to presenting to you today, we also recently had our Annual LP Stakeholder Meeting on November 15th to present this idea to the public for input. This idea seemed to be well received by all parties.

This particular proposal relates to conditional revivors for Limited Liability Companies, also known as LLCs.

Under current statutory authority, corporations and LLCs that are classified as associations who are suspended are granted an opportunity to revive without payment in full if the Franchise Tax Board determines
that the revivor will improve collection prospects.

        However, LLCs that are classified as partnerships
or disregarded entities are not provided the same
opportunity because the definition of "corporation" does
not include those entity types.

        This proposal would amend certain sections in the
Revenue and Taxation Code in order to grant all LLCs,
regardless of classification, an opportunity to receive
a conditional revivor. The proposed changes would
provide equal treatment amongst all LLCs seeking a
conditional revivor. This would increase taxpayer
compliance, improve accounts receivable collections, and
reduce taxpayer burden.

        If enacted in the 2023 legislative session, this
proposal would be operative on or after the date the act
takes effect.

        Implementing the proposed changes would occur
during the department's normal annual update.
Therefore, no departmental costs are associated with
this proposal.

        Finally, I would like to mention that we will
continue to seek authors for prior Board-approved
proposals.

        Thank you, Madam Chair and Board Members for your
time today. We respectfully request the Board's
approval on this legislative proposal, and I am happy to answer any questions that you may have.

Thank you.

CHAIRPERSON YEE: Thank you very much, Denis, for the presentation.

Questions or comments, Members?

(No response.)

CHAIRPERSON YEE: Okay. Seeing none.

MEMBER MILLER: I will be abstaining from this matter.

CHAIRPERSON YEE: Okay. Very well. Member Miller will be abstaining from this item.

So let me turn to see if there are any members from the public who wish to address the Board on this item.

(No response.)

CHAIRPERSON YEE: Seeing none approaching -- no one approaching the Board in the auditorium, any members of the public on the teleconference line?

PHONE MODERATOR: Members of the public on the phone line, if you would like to place yourself in the queue for public comment, as a reminder, you may press 1, then 0, at this time.

(No response.)

PHONE MODERATOR: No members of the public are...
queuing up at this time.

Please continue.

CHAIRPERSON YEE: Okay. Thank you very much.

MEMBER EVANS: Motion.

CHAIRPERSON YEE: Okay. Great. Thank you, Member Evans.

We have a motion by Member Evans.

I will second that motion.

Noting Member Miller is abstaining.

Without objection, such will be the order.

Thank you very much. Thank you very much.

Item number 4, Members.

Let me go ahead and just set the stage for this.

Item Number 4 is the Annual Taxpayer Bill of Rights Hearing. This is the time that is set for the Board's Annual Taxpayer Bill of Rights Hearing as required by Section 21006 of the Revenue and Taxation Code.

The purpose of this hearing is to allow taxpayers and tax practitioners the opportunity to present directly to the Board any proposals they may have for changes in existing state income tax law.

FTB staff is available to respond to member questions, which may be raised as a result of taxpayer proposals.

And present are Selvi Stanislaus, our Executive
Officer; Jozel Brunett, our Chief Counsel; Shane Hofeling, our Deputy Chief Counsel, Denis Armstrong, our Legislative Services Bureau Director; and Brenda Voet, our Taxpayer Rights Advocate.

Staff will analyze the fiscal and administrative consequences of the proposals and will provide responses at a later time.

Brenda has some introductory comments, and then we will open it up for public comment. And if any individuals need electric switching system assistance, they can call 1-800-883-5910. Again, 1-800-883-5910. And, when prompted, press 5 and then follow the additional prompts. So we will allow members of the public five minutes each to present to the Board.

And, Brenda, let me turn it over to you to make your introductory comments.

Good morning.

MS. VOET: Good morning. And thank you, Madam Chair and Board Members.

My name is Brenda Voet, and I have the privilege of being the Taxpayer Advocate for the Franchise Tax Board.

I would like to take a moment to first thank Controller Yee for her many invitations to participate in small business seminars she hosted during her time as
a board member of the Board of Equalization and as Controller. It was my honor to speak at many of these seminars to explain common forms of business ownership. Controller Yee, your seminars made it possible for the Taxpayer Rights Advocate team members to speak to thousands of small business owners and potential owners throughout California and help them understand the basic filing and tax responsibilities for the various forms of ownership available to them.

I would also like to thank Controller Yee for providing her valuable perspective, experience, and support of Franchise Tax Board's innovative solutions, as we continually strive to optimize services we provide to California taxpayers and tax professionals.

So now I will move on to the Taxpayer Bill of Rights Hearing portion.

For those presenting proposals today, I want to let them know that we will review their comments and concerns presented and are committed to responding in writing by February 1st of 2023. The responses will also be posted on the Franchise Tax Board's website. You can go to ftb.ca.gov and search for "your taxpayer rights," and this will take you to where the responses will be posted.

If you did not submit a formal letter prior to
the hearing, but you would like our response mailed to
you, all you need to do is provide us with your name and
address. You can do this by emailing us at -- one
word -- ftbadvocate@ftb.ca.gov. This email address can
also be found on our website by searching for "taxpayer
advocate services."

Madam Chair.

CHAIRPERSON YEE: Thank you very much, Brenda,
for your comments.

We will now open it up to any member of the
public that would like to make a comment. And please
remember to introduce yourself and who you represent, if
applicable. And we would like to request that you limit
your comments to five minutes so that everyone will have
an opportunity to speak.

First we will take comments from the public on
the phone line, and then we will take comments from
public -- from the public in the audience.

Is there a member of the public on the
teleconference line who would like to comment.

PHONE MODERATOR: Members of the public on the
phone line, if you would like to place yourself in the
queue for public comment, as a reminder, you may press
1, then 0, at this time.

We'll go to the line of Christine Grab. Please
go ahead.

MS. GRAB: My name is Christine Grab for the people of California.

I present 11 items:

1. The IRS treats married couples as one taxpaying entity for the moment IRS is -- (audio malfunction) -- and how IRS is notified that the status has changed. FTB does not follow this precedent. FTB readily admits it treats married people differently than single people in a manner which penalizes the married. This is a violation of the 14th Amendment of the U.S. Constitution, which states that government has to treat all classes of people equally.

   My wish is that California law be changed to conform with federal requirements.

2. In California -- (audio malfunction) -- required to prove to a judge that a debt is owed and get a court order in order to impose a wage garnishment, bank levy, or lien. The exception is the tax bureaus.

   My wish is that this loophole be closed and that the tax bureaus be required to prove to a superior court judge that the debt is legally owed prior to deploying collection tools.

3. Repeal Revenue and Tax Code 19179(c)(2), as it is direct violation of Tax Code Sections 21010 and
20102, which guarantees the right to protest as a part of the California Taxpayer Bill of Rights.

4. FTB collects many types of payments that it does not immediately credit to taxpayers' accounts.

   I expect full disclosure of all policies and procedures surrounding these payments, including an exhaustive list of all types of payments that are not immediately applied, when these payments do get applied, to ensure the money is implied -- applied, and which laws justify these practices.

   Furthermore, I expect specific identification of the custodian of the withheld monies, at what point the monies are considered revenue by the State of California, whether spending is authorized on the suspense accounts containing the withheld monies, and, if so, who legally may spend this money and for what purpose.

5. I expect an exhaustive -- (audio malfunction) -- all payments which are immediately applied to the taxpayer's account upon receipt by FTB.

6. For the purpose of calculating interest, FTB only recognizes some of the payments that have been made and only portions of other payments. I expect full disclosure of the policy and guidelines for determining which payment and portions of payment are withheld for
the purpose of calculating interest.

7. My wish is that all payments and correspondence that FTB receives are processed within 24 hours.

Currently, FTB processes correspondence received via free or low-cost methods, slower than it processes correspondence sent via expensive methods, which penalizes the poor. This violates Revenue and Tax Code 21027 and the 14th Amendment of the U.S. Constitution.

8. My wish is that FTB comply with Revenue and Tax Code 19117 by putting full amortization schedules on each bill. Information should -- (audio malfunction) -- balance, interest rates, the dates the interest began accruing, and an explanation of why some payments or portions of payments are not included in a principal balance.

9. Revenue and Tax Code 19087 states that a Notice of Proposed Assessment can only be issued on accounts that have an outstanding tax liability due for the year. Withheld payments are not credited in the NPA.

I expect the legal code to justify not crediting all payments on the NPA.

FTB also does not allow protests on the basis if the amount of money collected was underreported.
I expect the legal codes to justify denying the right to protest on these grounds.

10. On FTB's website, it states the Taxpayer Rights Advocate will not accept your case if it questions the constitutionality of the tax system or tax laws.

This is unconscionable. It is the job of the Advocate to ensure that FTB properly protects federal and state rights.

My wish is that this guideline be removed so that the Advocate can fulfill her job duties.

11. My wish is that FTB refer to taxpayers as "constituents" instead of as "clients." FTB staff are public servants who are employed by the taxpayers. We are your bosses, not your clients.

Thank you very much.

CHAIRPERSON YEE: Thank you, Ms. Grab, for presenting all of your issues. And we will be taking those under submission, and you will be receiving a response by February 1st.

Thank you.

Our next member of the public.

PHONE MODERATOR: We will now go to the line of Renee Rodda.

Please go ahead.
MS. RODDA: Thank you. My name is Renee Rodda from Spidell Publishing.

I would like to thank the Board Members and Chairwoman Yee for giving us the opportunity to share our thoughts and express some gratitude about our relationship with the Franchise Tax Board.

As you know, Spidell provides tax training, support, and updates to more than 20,000 tax professionals every year, with the vast majority of our clients serving California taxpayers.

We're partnered with the Franchise Tax Board to assist tax professionals and taxpayers in understanding California's complex tax laws to ensure compliance with those laws.

This year has been no exception, and due to large turnover in the Advocate's Office last year, we were apprehensive about how our partnership would work going forward. So we're pleased to inform you that our partnership is still going strong, and we appreciate the relationship we have with the Franchise Tax Board and the Advocate's Office.

We want to take a moment to commend Angela Jones, our liaison in the office, for her professionalism, dedication, and commitment to serving taxpayers' needs. She is tireless in her efforts to
assist tax practitioners and taxpayers and she goes
above and beyond to make sure our partnership not only
continues, but strengthens, with the goal of making sure
that taxpayers' needs are being met.

Our praise also extends to the other FTB staff
with whom we work. And some examples of our successes
over the last year, I think, are important to note.

First, there was a rapid fix to some form errors
that were discovered. Notably, when we noticed that
form instructions concerning the excess business loss
were inadvertently causing taxpayers to lose out on
valuable excess business loss carryover, FTB staff
responded almost immediately to revise the form to
address the issues, and then followed up with FTB news
alerts and articles to make sure taxpayers were informed
about these changes.

FTB staff also responded to our concerns about
new California tax basis reporting requirements that
were included in 2021 form instructions.

After pushback from the tax community for not
giving any forewarning of this new requirement, the FTB
was able to grant a one-year reprieve and is allowing
entities to provide their partners' and members' capital
accounts using their federal tax basis for the 2021
taxable year. We really appreciate this assistance.
As far as taxpayer communications go, we continue to work with Angela and other staff to make sure that the pass-through entity elective tax FAQs address the various questions that tax professionals were raising.

We were pleased to see that many of the questions we raised were added to these FAQs. However, as I will note in a moment, we would like to see this project expanded even further.

We want to acknowledge the outstanding job that the FTB staff did in timely posting FAQs regarding the middle class tax refunds. These questions were well thought out and very thorough. We hope to continue to see the FTB develop similar FAQs and education campaigns on other emerging topics.

It's very easy to point out where government isn't working, and we really want to take the time to point out where we think it's working well. So thank you for that opportunity.

I do want to point out some areas where we think there might be room for improvement. The first would be sharing information on a timely fashion with the taxpayer community.

We would like to work with the FTB to develop a more systematic approach to ensure that important information that is shared with Spidell, in response to

KATHRYN S. SWANK, CSR   (916) 390-7731
questions raised by tax professionals, is also shared with the larger taxpayer community.

We believe that not only this -- will this be a great service to taxpayers, it will provide a resource for the FTB staff to use, to ensure consistent answers are provided, and would also lessen the demands put on the Tax Practitioner Hotline and Ask the Legal Expert program.

Spidell recently publicized information that's been shared with us from FTB Legal. However, when practitioners asked us for citations or links to where the information can be validated on the FTB website, we have nothing to offer. This results in practitioners calling the hotline or sending questions to Ask the Legal Expert.

In several instances this year, this resulted in conflicting or incorrect information being provided through the FTB channel, and we feel that sharing the information on the website, in a public forum, would limit those errors.

Major form changes should also be publicized prior to their release. Last year, partnerships and LLCs did not realize they were going to have to revise how their capital accounts were reported until the forms were released.
This led to widespread panic in the tax preparer community, as they were not aware of the new time-consuming requirement until they were in the middle of filing season.

Fortunately, once the FTB received the feedback from Spidell and others regarding the difficulties the new requirement was causing, they deferred the mandate for an additional year.

However, if this requirement could have been communicated earlier, and not simply through a change in the form instructions, a lot of unnecessary angst could have been avoided.

We would also ask that you allow pass-through entities to apply overpayments of taxes to the pass-through entity elective tax. We have heard from numerous tax professionals who have asked whether overpayments of the 2021 pass-through entity elective tax, or other taxes, such as the S Corporation that income tax or LLC -- (audio malfunction) -- to be applied to the June 15th, 2022, pass-through entities elective tax prepayment.

It's our understanding that this is currently not allowed. It would greatly benefit taxpayers if these overpayments could be applied to the pass-through entity elective tax, as it would prevent cash flow crunches for...
entities that most currently wait for the overpayments
to be refunded, which could take many months.

We also request more consistency between the
e-file and Web Pay taxpayer ID number requirement.
General partnerships can e-file their returns using
their EIN, but must use an FTB-assigned partnership ID
number to use Web Pay.

Unfortunately, many taxpayers lose these numbers,
and we're aware of numerous taxpayers that were subject
to penalties because they were unable to timely use Web
Pay.

While the FTB has set up multiple ways for
taxpayers to access these ID numbers, we don't
understand the need to put taxpayers through these steps
and place additional demands on FTB staff and resources
as well.

And our final request is an update to Legal
Ruling 2014-01. This ruling addresses when out-of-state
LLCs or corporations, that are members of an LLC doing
business, are considered to be doing business in
California and, therefore, subject to California tax.
The holdings in this ruling have been overturned by the
California Court of Appeal in the "Swart Enterprises"
case and in an OTA precedential decision in Appeal of
However, the ruling has yet to be revised to reflect these holdings, and taxpayers and tax professionals reviewing this ruling would not know that the ruling does not reflect current law.

We hope that we can work with the FTB to successfully address these and other issues going forward. And, again, we want to take a moment to thank Selvi, Brenda, and Angela, as well as all of the other FTB staff for your dedication and commitment to serving the taxpayers of California.

Thank you.

CHAIRPERSON YEE: Thank you very much, Ms. Rodda, for your comments.

And I too want to express our appreciation for the partnership with Spidell and very much have a shared commitment to serving the taxpayers of California with the highest degree of professionalism and excellence.

Thank you.

Our next member of the public on the teleconference line.

PHONE MODERATOR: No additional members of the public are queuing up at this time.

Please continue.

CHAIRPERSON YEE: Very well. Thank you very much.
Let me just see if there are any members of the public in the audience who wish to come address the Board.

(No response.)

CHAIRPERSON YEE: Seeing none coming forward, I will turn it back to you.

MS. VOET: So thank you very much.

I really appreciate all those that provided their proposals today. And as I stated earlier, we will provide our replies in writing by February 1st of 2023. Their partnership really does help us identify areas where we can improve the information and services we provide to California taxpayers and tax professionals. So thank you.

CHAIRPERSON YEE: Thank you very much, Brenda. And thank you for your kind words at the beginning of your remarks.

And very much appreciate the services of your -- of you and your team and always look forward to this part of our annual -- annual meetings. Thank you.

Members or comments -- or members or questions -- questions or comments, Members, on this item?

(No response.)

CHAIRPERSON YEE: Okay. Very well. Thank you very much.
All right. Now let's move on to Item Number 5.

This is the Executive Officer's Time. And let me turn
it over now to Selvi Stanislaus.

EXECUTIVE OFFICER STANISLAUS: So thank you,
Madam Chair. And good morning, Board Members. I would
like to begin my time today to acknowledge the
retirement of Teri Dowd, Director of the Accounts
Receiveable Management Division.

Controller, back to you.

CHAIRPERSON YEE: Thank you very much.

First of all, let me just say thank you. We are
very happy to recognize Teri today with the retirement
resolution and really celebrating her over 30 years with
the Franchise Tax Board.

It is -- it is just really remarkable, and I want
to also welcome Teri's family who is joining us today.
Teri is joined today by her son, Christian Rau;
daughter, Sydney Rau; mother, Barbara Dowd; sister, Debi
Emery; brother-in-law, Scott Emery; and honored friend,
Anthony James.

Welcome to all of you.

When I -- as I think about all of the members of
the FTB team who we celebrate and their years of service
here, each individual just has contributed such amazing
work over their time here, and Teri is no exception.
And I'm going to read her resolution, because you will see just what a wonderful resource she was to so many here at the Franchise Tax Board.

So whereas, Ms. Teri Dowd, who began her Franchise Tax Board career in 1992, is known for her honesty and wit, as well as being a manager's manager and being proud to have spent her entire career in the ARM Division; and

Whereas, Ms. Teri Dowd implemented the Federal Treasury Offset Program and served as go-to project manager for numerous initiatives, including new collection programs, who was never too busy to offer support or share a laugh; and

Whereas, Ms. Teri Dowd is a leader and mentor, brilliant at developing teams, answering tough questions, while also making sure her team was properly prepared and supported; and

Whereas, Ms. Teri Dowd demonstrated her thoughtfulness by always doing the right thing, and the ability to recall information at a moment's notice, and always encouraged a dry run or two for all presentations; and

Whereas, Ms. Teri Dowd, who is a self-proclaimed introvert, the consummate inspiration for excellence, and can best be described in the acronym SOLID:
Selfless, open minded, leader who listens, interactive, dependable; and

Whereas, Ms. Teri Dowd, who is an awesome FTB family member and friend, who followed in her mother Barbara's footsteps with a career at FTB, is a proud mother herself of children Christian and Sydney Rau, who loves a "staycation," who is a published author, who is happy to hook up a drip system using her MacGyver tool box -- oh, you and I would get along just fine -- and who is a colleague who came into our lives and made a meaningful and lasting impact;

Now, therefore, let it be resolved this eighth day of December 2022, by the Franchise Tax Board that we recognize and thank Ms. Teri Dowd, on the day of her retirement, for her professional and personal dedication during 30 years to the Franchise Tax Board, most importantly, to the people of the State of California.

Congratulations. And we wish you all the best as you embark on your next chapter.

(Applause.)

MS. DOWD: I have a few words here. So good morning and thank you, Madam Chair. Wow. What an honor to close my career at the same time you are ending this chapter of your career. I have learned a lot from you over the years, over the last eight years, watching you...
as you chaired the Franchise Tax Board with wisdom, strength, and grace.

To all the Board Members, past and present.
Thank you so much for your oversight and support to ensure that FTB is successful in our mission to help taxpayers file timely and accurate tax returns and pay the correct amount to fund the services important to Californians.

Selvi, thank you so much for the opportunity to serve as one of your senior staff. I have most certainly valued your trust and your support.

Thank you to all my peers, coworkers, and staff for our collaboration, dedication, and coming through for me when I have reached out for something.

You know, I have had a lot of mentors over the years, and I have to say, I have grown the most with my current Division Chief of ten years, Jennifer Fowler. Jennifer, you are a great leader, and I appreciate you giving me the room to grow and always providing me what I needed to be successful. Even more so, I appreciate the great friends we have become. See, that's the thing about working here. It's like family. And I will treasure all the lifelong friendships I have made here.

It's truly been an honor to serve the public for the last 30 years. See, I'm a third generation of
public servants in my family. My grandmother, Judy Tucker, was an elementary school teacher her entire career. My mother, Barbara Dowd, who is with me here today, was also a teacher for several years before coming to FTB for most of her career. She retired from FTB in 2005 with 26 years of state service. Thank you for your persistence in handing me FTB job notices until I finally listened.

(Laughter.)

MS. DOWD: So will there be a fourth generation? Well, only my kids back there can decide that one.

Speaking of which, thank you to the rest of my family and dear friends for all that you have done for me over the years.

In closing, I'm truly honored and grateful to be recognized today for serving the people of this great State of California.

(Applause.)

CHAIRPERSON YEE: Thank you so much, Teri.

We would like to invite you to the stage for a photograph with the Board Members. And I'm just going to also offer an opportunity for your family to join you on the stage as well.

(Applause.)

CHAIRPERSON YEE: And this is really like a
family here. So thank you so much, Teri.

With that, Selvi, I'm going to turn it back over to you.

Thank you, Controller.

So once again, a heartfelt congratulations to Teri on an outstanding career. I wish you nothing but the best for your retirement, and I hope you enjoy time with friends and family as much as we have enjoyed having you in our family, Teri. And I want to sincerely thank you for everything you have done for FTB.

I would also like to congratulate our Board Member and now Controller-Elect, the Honorable Malia M. Cohen. On behalf of FTB, we look forward to your service as State Controller.

So Ms. Cohen, your continued dedication to the more than 10 million Californians in the BOE Second District has been of great value to this Board, and I know that you will continue in your role as Controller. We sincerely appreciate the important perspective you will bring.

And as always, thank you, Member Miller, for your wisdom and guidance and support year after year. We truly, and I truly, appreciate you.

And now, I turn to our Chair and the Controller, the Honorable Betty T. Yee.
So Controller Yee, you have faithfully served the people of California for eight years as State Controller and as FTB Chair.

Throughout your two terms as Controller, you have worked tirelessly to represent the best interests of California's taxpayers, and you have been so instrumental in leading FTB through eight successful tax filing seasons. Your work does not come without sacrificing precious time and energy away from your family. So I would like to especially recognize and thank your husband, Rabbi Steven Jacobs.

(Applause.)

EXECUTIVE OFFICER STANISLAUS: And we are thrilled to have you here today, Rabbi. And thank you, Rabbi Jacobs, for sharing the Controller with us all these years.

So Controller Yee, as a small gesture of our appreciation, a few of our FTB staff have put together a video to express our thanks to -- for all that you have done for FTB.

(Video played.)

(Applause.)

EXECUTIVE OFFICER STANISLAUS: So Controller Yee, many FTB employees came forward to volunteer to be a part of creating this video, both in front of and behind
the cameras. I can say that everyone involved was more than thrilled to be a part of it, which exemplifies the positive impact you have made in our FTB family.

Controller, as you can see, there are a lot of people here at FTB who are extremely grateful for you and your service.

Additionally, I understand that there are some folks here who would like to make a few brief comments to the Controller. If you do want to make a few comments, it's time now. Please come up to the podium.

MS. TONG: Good morning, everyone. Betty, I am here in my both role as a -- just a community member, who I had the privilege to meet many, many years ago; and also in my professional role as the secretary, GovOps Agency.

And I really appreciate Selvi extend this opportunity for me to come here and say a few word of appreciation on behalf of the Government Operations Agency and for those you who have impacted so much in the community.

I still recall the days -- I wouldn't disclose how many years ago -- that I have met you. But I was a new member that -- you know, starting my community volunteer services, I will say, more than two decades ago.
And one of the individual, you, have -- you know, have this impression that I have been, you know, left with me. And I have seen you in so many events, rain or shine, that you were always there, shaking people's hand, talking to the community members individually, and just listen to their voice, having a dialogue with them, and really, really connect with them on what is the best and what is the voice of the community.

There are times I see you there by yourself. There are times I see you there with your wonderful husband, Steve. And it's no kidding when Selvi is saying that -- thank you, Steve, for sharing Betty with us, and thank you, for both of you and her, of constantly investing so much in the community that you live in.

On a professional level, again, many, many years ago, I have watched you from afar, from the various role that you have. But in the past five years -- or years or so, by stepping into a position that are -- in this state, that have a lot of -- a lot of responsibility on my shoulder. You were the first one to reach out and congratulate me into that role. And through that -- that time, there were definitely ups and downs, and some of them were very, very difficult times that me and my department had to go through. You were the first one
that reached out personally to check in, how am I doing.

And I just want to say that maybe a simple text from you, but it really meant a lot for someone that have gone through, you know, their career path, modeling the best way on what they can do to be a public servant, and have someone to look up to, as we all have, you know, pointed out that -- the contribution that you have made, as a public servant yourself, of really leading the way and setting the bar high in terms of what a public servant ought to be.

And today, I have the privilege to serve as the secretary of GovOps Agency. And I wanted to make this personal appreciation and express my personal gratitude on the admiration, the tremendous respect, not only myself, but I know I can speak on behalf of many, many people, that we all have for you.

And congratulate to you and Steve to hopefully to have some fun and downtime ahead. And look forward to seeing the next chapter of what you are going to continue to accomplish.

Congratulations, Controller Yee.

(Applause.)

MR. GUTIERREZ: Good morning. My name is Rob Gutierrez, president of the California Taxpayers Association. Thank you, Selvi, for allowing us a moment
to recognize the tenure and service of our State Controller. And Betty, it has been a pleasure to work with you over the past eight years, and you have served with dedication to the taxpayers. You have always done this with an open door. And I really appreciate everything you have done, working with our membership over the last eight years, and just being available to meet and discuss critical issues that have faced our state and the taxpayers.

Again, you have served with the willingness to listen to all perspectives at all times, and even when those times have been difficult. And, for that, we're truly grateful. We have had a lot of hard discussions over the years.

But you have made sure that you brought everyone to the table during these times. And for that, I think you have helped facilitate those discussions and brought people together. And so I think we're -- the taxpayers are most grateful for that.

One of the things I most appreciate about you is that you come from a tax world and you have -- you are one of us. And so, you know, you have always viewed issues on policy developments through the lens of, how do we advance good tax policy. So I really appreciated that.
You are leaving this position in good hands, and so we're thankful for that. And we know this isn't goodbye. So we look forward to working with you in the future, and you deserve plenty of time off after these past eight years. So hopefully you will get some rest.

But thank you so much for your service and dedication to the taxpayers. We really appreciate you.

Thank you.

(Applause.)

MR. SPERRING: Good morning, Madam Chairwoman and Honorable Members.

For the record, my name is Jon Sperring, and I'm a tax partner at PricewaterhouseCoopers.

It was 20 years ago that Betty Yee became Carole Migden's Chief of Staff at the State Board of Equalization. At that time, few could have anticipated the outside role -- the outsized role that Betty Yee would have in the administration of California's tax laws.

Over the course of the last 20 years -- 12 elected BOE and 8 as State Controller -- Betty Yee has adjudicated thousands of tax appeals, approved scores of tax regulations, approved thousands of settlements, voted on precedent-setting litigation matters, and had a voice in key personnel decisions at the BOE and FTB.
But the exemplary fulfillment of her statutory duties does not tell the complete story of Betty Yee's legacy. And, of course, her professional legacy is not limited to tax.

It's easy for us in the tax world to forget Betty's career in public service started two decades before joining the BOE, where she earned a reputation as one of the most knowledgeable people in the capital on the state budget.

However, it is her impact and legacy on tax administration that I want to call out for special attention. And it's particularly appropriate that we are honoring her at a meeting of California's largest tax agency.

In an era of increasing polarization and coarse language, Betty has arrived -- has strived to keep the discourse between the FTB and taxpayers courteous and high-minded. She welcomes all perspectives and has -- and has always strived to apply the tax laws in an impartial manner. She has worked tirelessly for fair and efficient administration of California's tax laws. Betty based her decisions on facts, not preconceptions. This meant that she always did her homework and she always had an open door.

It is now incumbent on everyone in this room,
especially the leaders of the FTB, to continue Betty's legacy; to ensure that the voice of taxpayers is always included in the administration of California's tax laws.

And so without further ado, it is my honor to present Controller Betty Yee with this plaque from CalCPA to express the association's deep appreciation for her many years in public service to the State of California in tax administration and tax policy.

(Applause.)

MS. MAGERS: Controller Yee, Members, I'm Gerri Magers, and I'm a member of the EDR2 project.

And I've had the absolute delight of working with Betty Yee over many years, 32 years, while I worked for the State of California, and bounced into her many times at the Department of Finance, where she started to say to the IT community, "You need a closer relationship with the program to get better results in IT, and I expect you and your community to start implementing that in a manner that is -- shows that close relationship."

After I worked for the State of California, I joined a large consulting company. And in that regard, I met with Betty quite frequently because she was the Chair of the Franchise Tax Board while we were doing the EDR1 project. And that was the most fun, because she came out and, in her very charming way, she said, "I
have some things to tell you about that I expect. You have a tremendous responsibility to make sure that the EDR2 -- the EDR system is easy for the taxpayer to use."

And then she said, "2. I want to make sure that compliance isn't a hardship."

"3. I want you to deliver all the revenue that you said that you were going to deliver on this project."

"4. I would like you to meet the business requirements."

And then she charmingly smiled at us and gave us this stare, which I understood meant, "and don't screw up a department that is working well."

(Laughter.)

MS. MAGERS: Okay? So she did that -- but I mean, many people do that in terms of a threat. Behind the threat comes the support, and the support is that if we hit a hiccup, she was there to kind of -- with our CEO, to kind of guide us through it and give us advice. And she showed us what the meaning of partnership was, and she actively supported us through a very successful project.

We believe that you exemplify, in the best way, a public servant. And we hope your retirement is only a step to more offices, to help support it, and the IT
community will be behind you because of your support for us.

    Thank you.

(Applause.)

MS. STOWERS: Good morning. I am Yvette Stowers, Executive Director for the Board of Equalization.

I would like to express my deepest appreciation, respect, for Controller Betty T. Yee.

Over the past 14 years, I have had the opportunity and honor to witness Controller Yee's commitment to public service. She is a leader with integrity, who always treat people with respect and kindness.

Over the years, Controller Yee has championed financial literacy, empowerment for working families, and a fair and equitable tax system.

As a tax champion, she has supported education and outreach of the following: California Earned Income Tax Credit; Young Child Tax Credit; federal tax credits; free tax return preparation; VITA; tax amnesty; voluntary compliance I and II. I got the giggles.

COVID-19 tax relief; extending tax preparer deadlines; extending and deferring collections; gig economy; and tax compliance; same-sex married couples; and registered domestic partners in tax filing; and so many, many more.
Her breadth of tax law is exceptional.

Controller Yee, as the First District member for the BOE, and in her role as the Controller, has heard and decided thousands of complex and emotional tax cases, including like-kind exchange; swap and drop; apportionment distortion; 25137 petitions -- that was to Jon Sperring -- business and nonbusiness income determination; unitary determination; trust tax ability; R&D credit; manufacturers credit; EZ hiring credit; and other state tax credit.

When deciding the appeals, Controller Yee remained neutral, objective, and transparent. Her vote on the cases was always based on a clear understanding of the disputed issues, facts and evidence provided, and the appropriate law. She had a comprehensive analysis of the issues.

In closing, Controller Yee has been one of the most consequential State Controllers and BOE members. Thank you for your leadership, your service, your mentorship, your friendship, and your sisterhood.

(Applause.)

EXECUTIVE OFFICER STANISLAUS: And I believe we have one more Speaker.

Anthony, go ahead.

MR. EPOLITE: Thank you, Yvette. I'm
Ms. Stowers' successor as the Controller's Deputy.

Controller Yee, fellow Board Members, I first met the Controller back in 2003, when she was the Chief of Staff to a board member -- Board of Equalization member, and I was an attorney in BOE Legal.

Through the years, I presented before the Board. And there was the Board Member Yee, and then Controller Yee, always gracious and kind. She was different than the other board members, always with a smile, pleasant to all.

Now, fast forward to today, and I have had the opportunity to work directly for you and be a part of your staff and the tremendous team that you have assembled. I would like to thank you for that. It has been my honor and privilege to be your deputy. I wish you well in all that lies ahead.

Thank you.

(Applause.)

EXECUTIVE OFFICER STANISLAUS: So thank you, all, for sharing those kind words.

Controller Yee, the video and words shared today captures just a snippet of what you have meant to FTB and to the people of California. We also wanted to permanently recognize your record of dedicated service and highlight just some of the characteristics that
speak to your commitment and dedication.

So, as a small token of our appreciation, we would like to present you with a special resolution. I have it right here, which I will read some parts of it now:

Whereas, Controller Betty T. Yee has faithfully served California's taxpayers, the tax professional community, and Franchise Tax Board's employees, as a member of the Franchise Tax Board since 2007, including three years as the Chair of the Board of Equalization, and eight years as State Controller, and the Chair of the Franchise Tax Board; and

Whereas, Controller Yee is a friendly and welcoming face on our FTB campus. We gratefully acknowledge her many contributions that improve our customer service and taxpayer experience, including Tax Day media interviews at 3:00 o'clock in the morning, graciously participating at VITA events, and always supporting FTB; and

Whereas, Controller Yee is a thoughtful and compassionate leader, a devoted colleague, who works tirelessly to ensure a healthy and safe environment at FTB, while maintaining excellent service to taxpayers during the most challenging times, while never, ever wavering on her commitments; and
Whereas, Controller Yee, who, when called upon to bring economic relief to millions through the Golden State Stimulus and middle class tax refund programs, was instrumental in leading the successful disbursement of billions of dollars to Californians in need; and

Whereas, Controller Yee, due to your own humble beginnings, working for your own family small business, you are a champion and advocate for countless other small business owners who truly feel and appreciate your ability to relate to the difficulties and challenges they encounter; and

Whereas, Controller Yee, who is a forward thinking leader and a champion for the public good, is a beacon of stability and an inspiration to all of FTB. And, but most of all, a dear friend to FTB and a dear, dear friend to me, who will be greatly missed.

Now, therefore let it be resolved, this eighth day of December 2022, that we recognize and sincerely thank Betty T. Yee for her professional and personal commitment to the FTB employees, the tax professional community, and, most importantly, to the people of the State of California.

And at this time, if we could have Rabbi Jacobs join us for a photograph.

(Appause.)
MEMBER EVANS: On behalf of Ms. Cohen, I just want to take the opportunity to first just thank you. Thank you.

Many of you know that Ms. Cohen and Controller Yee both come from San Francisco, and from Ms. Cohen's perspective, from the day she was sworn into office, you have been there in so many ways: Your leadership, your guidance, your counsel has just been phenomenal. She truly believes that you have been a partner in the business and appreciates your many, many hours and discussions, and just your service. And you have made a difference in her service to the State of California.

She knows this is a well overdue -- don't even want to call it a departure, right? It's just going to be a little time off, and she is saying "pause" -- and I think that's the appropriate term -- before you go on to the next chapter in your life. But she wants you to know that she is so proud of you, and she is so proud of your service, not only to the employees and the many staff within the state, but the residents of the state of California, and it has made a world of difference. What a legacy, what a contribution.

I would also like to say, many of you don't know that Betty Yee and I joined California government as Senate Fellows. We both entered into the same office.
I think I was a year before her.

And it's been amazing to watch you. It's been amazing to watch what God has done with your life and how you have walked into all those doors and you have stood tall and you have served.

And I know we have talked about Rabbi Jacobs and the fact that he has shared you with us. But, Rabbi Jacobs, I also want to thank Betty for sharing you with us, because you have also been just there in so many ways, so many conversations, and so many contributions. So, Betty, thank you for sharing him with us.

Thank you for your service. And I just extend to you your -- our very, very -- gratitude and appreciation for everything you have done, not only for Ms. Cohen in our office but, again, for the great State of California.

Thank you.

(Applause.)

MEMBER MILLER: This is bittersweet indeed.

I also have known the Controller for 25 years, and we will see if I can get through this.

The -- I think the most urgent question that the Controller has asked, since you were a staffer in the Assembly Appropriations Committee, is really the urgent question of what you can do to serve, what you could do
to show up and to help others, to provide for others the opportunity your amazing mom, that you have -- that brought you here. And the hope that they had for their children and their family, as a kindergartner in California, showing the opportunity.

It is -- it's truly incredible and there is really nobody like you in, really, the world. It's the idea of this -- Rabbi Jacobs, I think of hineni, like "here I am."

The Controller, with your support and your soul, really has -- just says "here I am," ready to serve, with incredible humility and grace.

And it is -- it has been no small feat to get through the personal and professional challenges, and the years and the accomplishments are too many to enumerate. But it is -- it is truly -- it's a personal loss and a loss to the State of California, and I do look forward to your continued service in so many ways. And I just am -- I am so incredibly grateful and cannot tell you how deeply I appreciate. And I think the best we can do, in your legacy, is try to be more like you and try to show up and be for all the people that you care so deeply about, the things we know about and all the things we don't. So truly, truly, from the bottom of my heart. Thank you.
Thank you, Rabbi.

(Applause.)

CHAIRPERSON YEE: Thank you, Selvi.

I don't know that I would ever hand it over -- it's Executive Officer's Time. But, first of all, let me just say, what an honor it's been to be a part of the FTB family for all these many years. And it really and truly is a family.

I think about the tax arena, really, in terms of all of government, how difficult of an arena this is. We're not the most popular, frankly, with a lot of the people in the state of California or the people across the United States, as it relates to the IRS.

But, you know, one of the things that I have always felt about the service, particularly here, is that as difficult as the issues can be, as personal as the issues may be -- and Yvette, you forgot one of the areas of tax cases that you know is truly my favorite, and those were the residency cases.

(Laughter.)

CHAIRPERSON YEE: You know, it is -- the work here has just always reminded me that these issues are difficult, they are personal. They can affect people's livelihoods. They can affect, really, the success of a company or a business. And because it is so difficult.
There's really no need -- and I say this to be true in all parts of our life. There's no reason to mow people down. It's a motto I have carried with me, because there's enough bad that just happens in the world around us. And I just want to thank the members of the FTB family for really understanding that.

You know, the level of customer service that we provide at this organization is really one of the highest that I have seen. And, in fact, we've been the model for the IRS.

So I know that this is something that I hope will continue to be the commitment for each and every one of us here in this room and part of the FTB.

Let me just first say thank you for the kind words that everyone has expressed. Selvi, whom I also first met in 2003, when she was in the BOE's Legal Department. You know, there's just something about Selvi that was always about going the extra mile, without asking.

And I don't know that many of you knew then Board of Equalization Member Carole Migden, but when she had questions, you were there 24/7. And I just know that Selvi was there. And I remember, just, late hours that she would come and see me in the office about a particular appeals matter.
And I will just never forget how our friendship started at that point. Her commitment, and what I saw just continues to shine through in terms of her commitment to service.

So it really is no surprise that she is the Executive Officer of the Franchise Tax Board today, but also know that she is also a role model for so many who look to her for her leadership and her compassionate leadership as well.

So Selvi, thank you very much for your friendship and for just being an example of just how we can continue to be leaders and continue to serve people. But, again, not mow people down in the process.

To Jozel, to Shane, to the Legal folks here, it actually felt really good to be here and to, like, be colleagues rather than having to be an adjudicator and getting to know the work of the Legal Division here. It's so much more and this is tough work. And I just want to thank all of the Legal Division, Jozel, under your leadership, but the attorneys here -- bar none. Some of the best and the brightest we have in tax law throughout the country.

It is quite remarkable, when you think about just some of the cases that come to us. We don't have a lot of financial might, in terms of being able to put all
the resources to it, but we have the talent. And time
and time again, they have demonstrated just what it
means to really protect the interests of the State of
California, and we are so grateful for the service that
you have provided and will continue to provide.

To my colleagues on this Board, you are sharing
the responsibility of providing strategic guidance for
this organization; I just want to -- I'm very grateful
for. You know, one of the things I love about serving
on boards is just how we all come from very, very
different perspectives, and when you can put those all
together, I just always feel like you come out with the
best work product and the best outcome. And I don't
think the members of this Board have been shy about
sharing some of their perspectives, and I have always
been very, very appreciative of that.

And so I look forward to Member -- Board of
Equalization Chairwoman Cohen, a controller like Cohen,
really taking over the helm of this organization. She
will continue to serve the taxpayers of California with
distinction.

And to Member Miller, who we shared a friendship
for a very, very long time, but to see her leadership,
now with the Department of Finance. But just, I would
say, in terms of tax policy and knowledge of tax policy;
it's hard not to think about just who crafts a lot of this and who gets to, you know, really be sure that most of what we get into the books really work. And to now see you really kind of have been all sides of that has been just really thrilling for me, but also I know that your service will continue.

We have been on a number of other boards together, and I feel we're in good hands, whether it's here at the Franchise Tax Board, at the State Lands commission, at CalSTRS, a whole number of boards. But you have someone who just puts a thousand percent into all of our work and issues.

So thank you. Thank you.

To those who spoke today, Amy Tong, another -- another star who I have had a great opportunity and pleasure to just see ascend in leadership and state government, to be the Secretary of GovOps today. But you really came in with the passion for IT, and thank goodness that she has been just a go-to resource. And I know -- as we continue to see Amy's contributions to California. Again, really, always with a foot in the community and understanding who it is that she serves. So just very, very grateful that you were here today, Amy. And we will -- we will be spending more time together.
To Rob Gutierrez with CalTax, I have cherished my relationship with CalTax. You know, one of the things that I really believe in, and it's been really the role of an adjudicator, I think, is to be open to all sides. And I really have felt that my relationship with CalTax has been a rich one. I have enjoyed really meeting many of the interested leaders throughout California, who are members of CalTax. But, more importantly, you have been a tremendous resource to me.

You know, one of the things about tax law that I find very, very enjoyable, and tax policy generally, is that it really moves with the times. And I think it probably needs to continue to do that at a quicker clip, whether it's about just how we transact business, how we look at — with respect to some of our other taxes, how we welcome new products into the marketplace, how we adapt to changing lifestyles.

And I'm so happy to see the House today send a bill to President Biden to codify marriage equality as a federal law. You know, these are all things that California was a leader in. And I hope that we continue to look at tax policy as something that really embodies, you know, what — this should be reflective of what our society is about and how we embrace all that is good and valuable in our society.
But, Rob, you have allowed me the opportunity to really meet many of the industry leaders. Because, frankly, there's no substitute than understanding an industry from those who actually are responsible for it. And to really help put a framework around some of the appeals cases we have heard to understand the operations of the company; to really have a firsthand knowledge and insight about how we craft regulations, that we don't get to get out of our little box here in Sacramento very much to really go and be on the ground to see some of that.

So thank you for really allowing us that opportunity.

To Jon Sperring, I always say to Jon, we grew up together over the last 20 years, to see your professional career soar well. I was pretty hard on Jon in terms of homework assignments because it was never -- you know, when they -- when people come and see you about cases and always want to know where you stand on a case. I never would disclose where I would stand on a case, but I would say here's what's missing. And bless your heart, Jon, you did your best to always try to fill in the missing gaps. Sometimes successful. Sometimes not.

But I have truly enjoyed watching your
trajectory, your leadership at PwC, your family. This
is the crazy part. When you have been doing this for so
long, you get to know the kids and they are in college
and they're in careers. And it's fantastic.

But just really very much appreciate the
friendship we have been able to develop, even as we've
been adversaries in the past.

And this is really a testament to what it means
to be open, to, at the end of the day, know that there
still can be compassion shared about what is important
in life.

To -- oh, my goodness. Gerri Magers. It's great
to see you here. But I have to say to Gerri -- every
time I think about Gerri Magers, I think about, this is
the woman the IRS needs to thank for really taking on
this EDR2 project. But not just take it on. But it
is -- was always about how we were going to deliver a
product that the taxpayers could really feel like was
their friend. And we're there and we're getting closer.

And I'm just so proud of the work and the
relationship we have had with you and your wisdom that
you have brought to this work.

These are tough projects. I mean, there's no day
that goes by where there isn't something about a failed
IT project in the private sector or the public sector.
But in the public sector, failure is not an option because we're accountable to the taxpayers of California.

And so, Gerri, your commitment, your outreach in terms of the expectations that we have of you not being shy about, you know, calling -- calling things as they are and allowing us to have that feedback, back and forth, is just really invaluable.

And I also really truly honor and cherish our friendship. Thank you for being here.

Yvette Stowers, my goodness.

Like I say, you can't do this work without a team. Yvette has been pretty much a one-woman team for me, for the last 14 years, almost 15 years.

And quite remarkable. She began her early career here at the Franchise Tax Board, went into the private sector for a bit, but now to be a stellar Executive Director of the Board of Equalization and guiding the members there. I can't think of anybody who is more qualified and just prepared to do exactly that.

But to Yvette also, I want to thank you for just always being so forthright and honest. And this is where I really just cherish and value so many -- all the members of my team. You know, we all bring our personal perspectives to the work that we do.
And Yvette challenged me a few years ago and I do want to say this publicly, because I think it's a challenge for all of us.

It was a time when all of us were really reeling and finding ourselves asking a lot of questions about what to do about so much of what we were reading about violence against the Black community. Gun violence against the Black community.

And I checked in with Yvette shortly after one of these incidents. And she was very candid with me. She said, "I don't know what to say. I don't know what to tell you. Because you actually work for a system that's been part of the problem."

And think about that. And it was said in such a loving way and a very thoughtful way. But in so many ways, it's true. When we think about the history of our country, when we think about California's history emanating from that, and how discrimination was a part of that, all the way through.

And this is the work that I believe we have to continue to do better in, and it starts right here with the FTB family and how we respect one another, how we lift up our diversity, and how we look at just treating each other with dignity every single day. And we do that here, which is why we are able to serve the
taxpayers with compassion and just with all of the professionalism that they deserve.

And so Yvette, thank you for being my personal mentor and really sharing just so many perspectives that I think go missing in many people's lives. I so appreciate you and love you.

And to Anthony Epolite, 2003 on, I have enjoyed watching your trajectory as well as a tax counsel. You seamlessly became our Deputy Controller for Tax Policy after Yvette's departure, and just such a critical part of the team.

Anthony also is a CPA, so I get the full package. And he has just been -- just stellar from when I first met him in 2003 to today. Thorough, professional, funny. Just wonderfully astute. And it has been, really, just some of the really most fun months of our time in the Controller's Office. Thank you for being a part of that team.

Now, what I want to say, in conclusion, is this: This is a pause. Service will always be a part of my life. It is a pause primarily because for the first time in 38 years, I'm not jumping into the next opportunity. And I'm excited about that.

And I particularly want to thank my husband, Steven, for understanding the demands of public life,
understanding the demands of politics, and understanding that, you know, my -- my commitment to service is really a 24/7 commitment. And he's been there every step of the way. And I am just so, so grateful and I love you so much.

But as this is a pause, I never forget that my beginnings really were ones -- was one that did not have me seeing myself being here in this place.

And Gayle, you summed it up nicely. You know, hineni. "We are here. I am here." And service is always going to be an order, so this is a pause. This a pause because my mother will turn 100 in April and I want to be there for -- to be sure that she is healthy, to celebrate that, really, milestone, and she's been my inspiration well.

But to look at just where I think we're headed, relative to the State of California, and we are a model and we are a leader, for not just the rest of the nation, but the rest of the world.

And I'm hopeful. I'm hopeful that with the dedication, collectively, that's in this room, that's throughout state government, that we will continue to be a model. And that we will transcend politics and that we will transcend just, really, what I think are misguided perspectives about what power really means.
This agency has power because we deliver for the people of California every single day. And that is what government, I believe, is. That is what, I think, elected officials are. Position is not power. But, really, delivering benefits and really being able to serve is. It is something that I will carry with me. I don't like to use the word "power" very much, as some may know. But I know the power of what can be done to transform people's lives. And we have done that here at the Franchise Tax Board.

So I leave here very humbled and also very content that we have delivered, in so many ways, to so many people in the State of California, and could not have done it without the family here, without the village I have at the State Controller's Office. And it is with tremendous and gratitude and pride that I leave this great organization.

Thank you.

(Applause.)

CHAIRPERSON YEE: Thank you very much.

At this time let me see if there are any members of the public who wish to come before the Board on any item?

(No response.)

CHAIRPERSON YEE: Okay. Seeing none approaching
us in the auditorium, are there any members of the public on the teleconference line?

PHONE MODERATOR: Members of the public on the phone line, if you'd like to place yourself in the queue for public comment, as a reminder, you may press 1, then 0, at this time.

And we'll go to the line of Ms. Sharp.

Please go ahead.

MS. SHARP: Yes, hi. My -- I do have a comment and it's pertaining to the Golden Stimulus Payment II. I'm sorry I lost signal. Then I had to get back in.

But I need to make aware how difficult this situation is for me. It's been over a year and I still have not received the Stimulus II payment. I got the one. I just recently got the middle class. And I know I'm qualified for it.

But for over a year, I've been dealing with the Franchise Tax Board going around and around on why they can't get me this payment. I got a lot of runaround from the representatives from the Franchise Tax Board. So then I had to go to the Tax Advocate for help.

And then in the summertime, they said that you should get it within 12 weeks. Well, it's now been over 12 weeks. I still haven't gotten it.

When I talk back to the Tax Advocate Department
and asked for a hearing -- because this has been going
on for over a year -- they said that you can't get a
hearing for that.

CHAIRPERSON YEE: Let me -- I thank you for
calling. And this is exactly the type of issue that we
want to be sure we are addressing. Let me be sure that
we have your name and contact information and we will be
assigning someone to respond to you shortly after the
meeting.

MS. SHARP: I appreciate it. Thank you.

CHAIRPERSON YEE: Thank you.

MS. SHARP: Do I give it to you wait or do I just
wait until at the end, and then I give it to you?

EXECUTIVE OFFICER STANISLAUS: It's best if he
[sic] can email it so it's not a public information. So
Tanya, would you give your email address. It's Tanya
Kelley at --

MS. SHARP: Wait a minute. Let me get a pen. I
got to get a pen so I can write this down because I'm
actually in my car. Hold on.

EXECUTIVE OFFICER STANISLAUS: Tanya, would you
come to the podium and give him [sic] your -- and spell
out your email address.

Thank you, Tanya.

MS. KELLEY: Thank you.
MS. SHARP: Hi. Hello.

MS. KELLEY: Are you ready for the email address?

MS. SHARP: I sure am. Thank you so much.

(Ms. Kelley's email address was provided.)

MS. KELLEY: Yes, ma'am. That is correct. And I will respond back to you directly. Thank you.

MS. SHARP: Okay. And I will send that out today. I thank you for your help in trying to get this resolved. I really appreciate your help.

CHAIRPERSON YEE: Thank you.

Are there any members of the public on the teleconference line?

PHONE MODERATOR: There are no additional members of the public queuing up at this time.

Please continue.

CHAIRPERSON YEE: Okay. Thank you very much. Thank you, Members. Thank you, everyone, for being here for this very special meeting for me today, and just for always the commitment to our taxpayers during our Annual Taxpayer Bill of Rights Hearing as well.

Our next item is a closed session item. And so the Board will be going into closed session at this time in a neighboring room. We will return to the auditorium upon conclusion of the closed session. So we ask that
the audience remain seated while the Board members exit
to the closed session.

   Thank you.

   (Closed session was held outside the
   presence of the Certified Shorthand
   Reporter: 10:44 a.m. to 11:34 a.m.)

CHAIRPERSON YEE: Thank you. Good afternoon, we
are -- or good morning still. We are reconvened in open
session. The Board met in closed session and we don't
have anything to report.

   And so let me just ask if there's any other
business to come before this Board.

   (No response.)

CHAIRPERSON YEE: Seeing none, we are adjourned.

   Thank you very much, everyone.

   (Proceedings concluded at 11:35 a.m.)
