□ California EITC

California began offering its own EITC (Cal EITC) starting with calendar year 2015 tax returns. This refundable tax credit puts money back in the pockets of California’s working families and individuals.

For taxpayers who owe taxes, Cal EITC reduces the amount of taxes they might owe and may allow them a refund when they file their taxes. If they do not owe taxes, Cal EITC will provide them a tax refund when they file their taxes.

□ Credit Amounts

California taxpayers can find their filing status below to see how much they may qualify for, or they can use the [CalEITC4Me online calculator](#) to estimate their credit:
