

## Supplemental Guidelines to California Adjustments

### General Information

In general, for taxable years beginning on or after January 1, 2015, California law conforms to the Internal Revenue Code (IRC) as of January 1, 2015. However, there are continuing differences between California and federal law. When California conforms to federal tax law changes, we do not always adopt all of the changes made at the federal level. For more information, go to [ftb.ca.gov](http://ftb.ca.gov) and search for **conformity**. Additional information can be found in the instructions for California Schedule CA (540 or 540NR) and the Business Entity tax booklets.

The instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the California Revenue and Taxation Code (R&TC) in the tax booklets. Taxpayers should not consider the tax booklets as authoritative law.

**Net Operating Loss (NOL) Carryback** – NOLs incurred in taxable years beginning on or after January 1, 2013, shall be carried back to each of the preceding two taxable years.

The allowable NOL carryback percentage varies. For an NOL incurred in a taxable year beginning on or after:

- January 1, 2013, and before January 1, 2014, the carryback amount shall not exceed 50% of the NOL.
- January 1, 2014, and before January 1, 2015, the carryback amount shall not exceed 75% of the NOL.
- January 1, 2015, the carryback amount shall be 100% of the NOL.

Individuals, estates, and trusts compute the NOL carryback in Part IV of form FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations – Individuals, Estates, and Trusts. For more information, get form FTB 3805V.

**Election to Waive Carryback** – Any taxpayer entitled to a carryback period pursuant to Internal Revenue Code (IRC) Section 172(b)(3) may elect to relinquish/waive the entire carryback period with respect to an NOL incurred in the 2015 taxable year. By making the election, the taxpayer is electing to carry an NOL forward instead of carrying it back in the previous two years.

To make the election, check the box in Part I under Section C – Election to Waive Carryback, of form FTB 3805V, and attach form FTB 3805V to the tax return. For more information, get form FTB 3805V.

**Registered Domestic Partners (RDP)** – Under California law, RDPs must file their California income tax returns using either the married/RDP filing jointly or married/RDP filing separately filing status. RDPs have the same legal benefits, protections, and responsibilities as married couples unless otherwise specified.

If you entered into in a same sex legal union in another state, other than a marriage, and that union has been determined to be substantially equivalent to a California registered domestic partnership, you are required to file a California income tax return using either the married/RDP filing jointly or married/RDP filing separately filing status.

For purposes of California income tax, references to a spouse, husband, or wife also refer to a California RDP, unless otherwise specified. When we use the initials RDP they refer to both a California registered domestic “partner” and a California registered domestic “partnership,” as applicable. For more information on RDPs, get FTB Pub. 737, Tax Information for Registered Domestic Partners.

### Conformity

For updates regarding federal acts, go to [ftb.ca.gov](http://ftb.ca.gov) and search for **conformity**.

### Purpose

Use these guidelines to make adjustments to federal adjusted gross income that are necessary because of current year or prior year differences between California and federal law. Generally, you report these adjustments directly on Schedule CA (540), California Adjustments – Residents, or Schedule CA (540NR), California Adjustments – Nonresidents or Part-Year Residents. If required to make multiple adjustments for any one line on Schedule CA (540 or 540NR), attach a statement to your return summarizing these adjustments.

In some cases you need to complete other forms or schedules to figure the adjustment to carry to Schedule CA (540 or 540NR). See “Order Forms and Publications” in your tax booklet for information about ordering forms or go to [ftb.ca.gov](http://ftb.ca.gov).

Federal law allows an additional 50% first year special depreciation for certain qualified property acquired on or after January 1, 2007, and before January 1, 2020. The percentage is phased down from 50 percent by 10 percent per calendar year beginning in 2018. California did not conform to this provision. • Depreciation of qualified leasehold improvements and qualified restaurant property acquired after December 31, 2014	Federal law requires a 15-year recovery period. For California purposes, qualified leasehold improvements and qualified restaurant property must be recovered over a 39 year recovery period.	Use form FTB 3885A to figure the adjustment to make on Schedule CA (540 or 540NR).
• Amortization of goodwill and certain other intangibles	Property classified as IRC Section 197 property under federal law is also Section 197 property for California purposes. However, for Section 197 property acquired before January 1, 1994, the California basis as of January 1, 1994, must be amortized over the remaining federal amortization period.	Use form FTB 3885A to figure the adjustment to make on Schedule CA (540 or 540NR).
• Business property moves into California	Depreciation methods and useful lives of trade or business property must be acceptable to California.	If an unacceptable method was used before the move into California, use the straight-line method to compute the basis in the property.
• Former Enterprise Zone (EZ), or Local Agency Military Base Recovery Area (LAMBRA) business expense deduction	Federal law has no comparable deduction. A California enterprise zone or LAMBRA business may elect to immediately expense up to \$40,000 of the cost of qualified property. For California purposes, an IRC Section 179 deduction may not be taken on any asset used to calculate the business expense deduction. A business expense deduction may only be taken on qualified property purchased and placed in service on or before December 31, 2013. The deduction is subject to recapture (added back to income) if, before the close of the second taxable year after the property was placed in service, the property is sold, or disposed of. The recapture period ends on December 31, 2016.	Use form FTB 3885A to figure any depreciation adjustment to make on Schedule CA (540 or 540NR).
• Accelerated depreciation for property on Indian reservations	Under federal law, certain property on Indian reservations placed in service after January 1, 1994, and before January 1, 2017, will be subject to special MACRS recovery periods. California did not conform to this provision. See federal Publication 3991, Highlights of the Job Creation and Worker Assistance Act of 2002.	Use form FTB 3885A to figure the depreciation adjustment to make on Schedule CA (540 or 540NR).
• Amortization of pollution control facilities	Both California and federal law provide for accelerated write-off of pollution control facilities. California law only allows the write-off of facilities located in California.	Enter the amortization for the California facilities on form FTB 3885A. California law allows a depreciation deduction if the tertiary injectant qualifies as property used in a trade or business or is held for the production of income.	Enter the amount of tertiary injectants deducted on your federal return on Schedule CA (540 or 540NR), line 12, column C. Attach a schedule reflecting the depreciation computation of tertiary injectants placed in service during the taxable year. Then complete form FTB 3885A.
• Reduced recovery periods for fruit bearing grapevines replaced in a California vineyard on or after January 1, 1992, as a result of phylloxera infestation on or after January 1, 1997, as a result of Pierce's disease	Federal law generally requires a 10-year recovery period for fruit bearing vines for purposes of accelerated cost recovery and a 20-year recovery period for those vines under an alternative depreciation system. California law allows 5 and 10-year recovery periods, respectively.	Prepare a schedule reflecting the depreciation computation of grapevines placed in service on or after January 1, 1992, (for phylloxera infestation), and placed in service on or after January 1, 1997, (for Pierce's disease). Then complete form FTB 3885A and attach it and your depreciation schedule to your return.

California conformed to this provision for assets placed in service after December 31, 1997.	Use form FTB 3885A to figure the depreciation adjustment to enter on Schedule CA (540 or 540NR).
• Start-up expenses (IRC Section 195)	For tax years beginning on or after January 1, 2011, California conforms to the federal treatment of start-up expenses under IRC Section 195. The deferral period is five taxable years for CODI generated in 2009, or four taxable years for CODI generated in 2010.	For federal tax purposes, at the end of the deferral period (taxable years beginning on or after January 1, 2014, and before January 1, 2019), the income is reported ratably over five years. If for California purposes, the CODI had been included in income during previous taxable years and you recognized the CODI for federal tax purposes in the current year, enter the federal CODI amount on Schedule CA (540 or 540NR), line 12, line 17, or line 18, column B.

• Basis adjustment for sales or use tax credit for property used in a former Enterprise Zone (EZ), LAMBRA, Targeted Tax Area (TTA), or LARZ.	Federal law has no comparable credit, but IRC Section 164(a) requires an increase in basis for the amount of sales or use tax paid. Under California law, depreciation is computed based on cost, without regard to the sales or use tax allowed as a credit. Federal and state basis will differ due to the increase in federal basis by the addition of the sales or use tax. The sales or use tax credit could only be taken on qualified property purchased on or before December 31, 2013, and placed in service on or before December 31, 2014.	Complete form FTB 3885A, Part III if you are depreciating the cost of the property in excess of the allowable credit.
