## B Definitions

**Certified historic structure** means any building, and its structural components, as defined in IRC Section 47(c)(3), that is located in California and listed on the California Register of Historical Resources.

**Qualified residence** means a taxpayer's principal residence as defined in IRC Section 163(h)(4) that will be owned and occupied by an individual taxpayer who has a modified adjusted gross income of \$200,000 or less. The qualified residence must be the taxpayer's principal residence or what will be the taxpayer's principal residence within two years after the rehabilitation of the residence.

**Qualified rehabilitation expenditure** means any amount used for the rehabilitation that is chargeable to a capital account per IRC Section 47(c)(2) with the exemption that there is no regard as to whether any portion of the certified historic structure or qualified residence is, or is reasonably expected to be, tax-exempt use property. Qualified rehabilitation expenditures also means expenditures incurred by the taxpayer with respect to a qualified residence for the rehabilitation of the exterior of the building or rehabilitation necessary for the functioning of the home, including, but not limited to, rehabilitation of the electrical, plumbing, or foundation.

## C Limitations

S corporations may claim only 1/3 of the credit against the 1.5% entity level tax (3.5% for financial S corporations). The remaining 2/3 must be disregarded and may not be used as a carryover. S corporations can pass through 100% of the credit to their shareholders.

If a taxpayer owns an interest in a disregarded business entity [a single member limited liability company (SMLLC) not recognized by California, and for tax purposes is treated as a sole proprietorship owned by an individual or a branch owned by a corporation], the usable credit amount received from the disregarded entity is limited to the difference between the taxpayer's regular tax figured with the income of the disregarded entity, and the taxpayer's regular tax figured without the income of the disregarded entity.

Get Form 568, Limited Liability Company Tax Booklet, for more information.

This credit **cannot** reduce the regular tax below the minimum franchise tax (corporations and S corporations), the annual tax (limited partnerships, limited liability partnerships, and LLCs classified as a partnership), the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

This credit **can** reduce regular tax below the tentative minimum tax. Get Schedule P (100, 100W, 540, 540NR, or 541), Alternative Minimum Tax and Credit Limitations, for more information.

**This credit is not refundable.**

## D Assignment of Credits

**Assigned Credits to Affiliated Corporations** – Credit earned by members of a combined reporting group may be assigned to an affiliated corporation that is an eligible member of the same combined reporting group. A credit assigned may only be claimed by the affiliated corporation against its tax liability. For more information, get form FTB 3544, Assignment of Credit, or go to [ftb.ca.gov](http://ftb.ca.gov) and search for **credit assignment**.

## E Carryover

If the available credit exceeds the current year tax liability, the unused credit may be carried over for eight years or until the credit is exhausted, whichever occurs first. Apply the carryover to the earliest taxable year. In no event can the credit be carried back and applied against a prior year's tax. Retain all records that document this credit and carryovers. The FTB may require access to these records.
