

**Status Report on Proposed Changes to Regulation 25137, subsection (b), and
Conforming Changes to Regulation 25130**

On April 29, 2003, staff received authorization to proceed with the formal regulatory process once the technical changes to the proposed regulation were completed. Staff is currently in the process of working with interested members of the public to finalize those technical changes and should have them completed by the first part of October. Staff anticipates holding a public hearing in January 2004.
