**Bill Number:** AB 2438  
**Introduced:** February 19, 2020

**SUBJECT**

California Public Records Act: Conforming Revisions

**SUMMARY**

This bill would make numerous technical, nonsubstantive changes as a matter of code maintenance to various California codes, including to the Revenue and Taxation Code (R&TC).

This bill also would make nonsubstantive cross-reference updates that would result from an unidentified bill that would recodify the California Public Records Act within the Government Code from Division 7 to Division 10.

This analysis is limited to the provisions of the R&TC administered by the department.

**RECOMMENDATION**

No position

**SUMMARY OF AMENDMENTS**

Not applicable.

**REASON FOR THE BILL**

The reason for this bill is to make technical changes and nonsubstantive cross-reference updates that would result if the California Public Records Act recodification bill is enacted.

**ANALYSIS**

This bill would make the changes shown in the following table to amend terminology for clarification, amend provisions to reflect the current style for drafting legislation, and modify references to be consistent with recodification of the California Public Records Act.

Effective/Operative Date

Assuming enactment by September 30, 2020, this bill would become effective January 1, 2021, and as provided in bill SEC. 435 would only become operative if the California Public Records Act recodification bill is enacted and becomes operative on January 1, 2022, in which case this bill would also become operative on January 1, 2022.

If another act chaptered in 2020 that takes effect on or before January 1, 2022, amends or repeals a provision that would be amended or repealed by this bill, the changes made by the other act would prevail and nullify the changes made by this bill.

Federal/State Law

Federal Law

Because this bill only makes nonsubstantive technical changes as a matter of maintenance of California’s codes, a review of federal income tax law would not be relevant.

State Law

As sections of California law are amended, cross-references to sections in other parts of the law may not always be updated.

Incorrect nomenclature, cross-referencing, unclear terminology, and language that is inconsistent with the current style for drafting legislation can create confusion for taxpayers and the department when applying state law.

Implementation Considerations

Implementing this bill would not significantly impact the department.

Technical Considerations

For clarity, it is recommended that bill SEC. 435 be amended to identify the bill number of the California Public Records Act recodification bill.
In Civil Code section 1798.70, strike out “7522.000” and insert “7922.000”.
