Bill Number: SB 49

Amended: July 12, 2023

SUBJECT

Renewable Energy: Department of Transportation Strategic Plan

- No analysis required – Not within our scope of responsibility.

SUMMARY

This bill, under the Streets and Highways Code (SHC), would require a strategic plan for development of land within department-owned rights-of-way to build and operate renewable energy generation facilities, energy storage, facilities, and electrical transmission and distribution facilities.

ANALYSIS

The July 12, 2023, amendments removed all provisions of the bill under the Personal Income Tax Law and the Corporation Tax Law that would have allowed a solar canopies tax credit. The bill amends the SHC to develop a strategic plan for energy facility land development. As a result of the amendments, this bill no longer impacts the Franchise Tax Board's programs and operations.
