Introduced: February 19, 2025

SUBJECT

Parkinson's Disease Research Voluntary Contribution Fund

SUMMARY

This bill, under the Administration of Franchise and Income Tax Laws (AFITL), would create the Parkinson's Disease Research Voluntary Contribution Fund (the Fund) and would allow a taxpayer to make a voluntary contribution to the fund on their state personal income tax return from tax year 2025 to 2031.

This analysis only addresses the provisions that would impact the Franchise Tax Board (FTB).

RECOMMENDATION

No position—The three-member Franchise Tax Board has not formally voted or taken a position on this bill.

SUMMARY OF AMENDMENTS

Not applicable.

REASON FOR THE BILL

The reason for this bill is to allow public and private funding, including donations made on the individual income tax return, for medical institutions and research entities to help find a cure for individuals living with Parkinson's disease.

ANALYSIS

This bill would establish the Fund and allow taxpayers to make designated contributions to the Fund on their personal income tax returns in full dollar amounts of \$1 or more. Each signatory on a joint return may make the contribution individually. The designations for any taxable year must be made on the original return for the taxable year, and once made, are irrevocable.

In addition, this bill would do the following:

- Specify that if payments and credits reported on the return do not exceed the taxpayer's liability, the taxpayer's return would be treated as if no designation had been made.
- If a contribution is designated to more than one account or fund listed on the tax return, and the amount available for designation is insufficient to satisfy the total amount designated, the contribution would be allocated among the designees on a pro rata basis.
- Require the FTB to revise the form of the return to include a voluntary contribution designation space for the Fund. In addition, this bill would require the return's instructions to include information that the contribution may be in the amount of \$1 or more and that the contribution would be used to support grants for research into Parkinson's disease.
- Allow a charitable contribution deduction on the state income tax return for the year in which a contribution is made.

This bill would require the FTB to notify the Controller of the amount to be transferred to the Fund. Amounts transferred to the Fund would be continuously appropriated and allocated as follows:

- To the FTB and the Controller for reimbursement of associated administrative costs, and
- To the Fund.

The FTB would be required to estimate by September 1 of each calendar year, starting with the second calendar year that the Fund appears on the tax return, whether contributions made would be equal to or exceed \$250,000. If the estimated contributions are less than \$250,000, the law authorizing designations for the Fund would become inoperative for taxable years beginning on or after January 1 of that calendar year and repealed as of December 1 of that year.

Otherwise, the Fund would remain in effect until January 1, 2032, and would be repealed as of December 1 of that year.

Effective/Operative Date

This bill would be effective and operative January 1, 2026.

Federal/State Law

Federal Law

No comparable provision in federal law.

State Law

Current state tax law allows taxpayers to make monetary contributions to certain specified voluntary contribution funds when they have available funds (payments and credits) that exceed their current year tax liabilities. In addition, taxpayers contributing to any of the specified funds are allowed to deduct those contributions on their state income tax return for the year in which the contribution is made.

Generally, the voluntary contribution funds remain on the tax return until they are either repealed by operation of law or fail to meet a minimum contribution amount. The FTB is required to make the determination by September 1 of each calendar year, beginning on the second calendar year the fund appears on the tax return, as to whether estimated contributions to the fund will be less than the minimum contribution amount for that calendar year.

If the FTB estimates that contributions to a fund will fail to meet the minimum contribution amount for a calendar year, that fund would generally remain in effect until January 1 of that calendar year and would then be repealed on December 1 of that calendar year.

The following general requirements apply to new or extended voluntary contribution funds:

- The words "voluntary tax contribution" must be included as part of the name of the fund.
- The administering agency's internet website must report specific data related to the usage of the amounts received via voluntary contribution.
- The minimum contribution amount is \$250,000.
- A voluntary tax contribution would remain in effect only until January 1 of the seventh calendar year following the first appearance of the contribution on the tax return and would then be repealed as of December 1 of that year.

Implementation Considerations

None noted.

Technical Considerations

The FTB has identified the following technical consideration and is available to work with the author's office to resolve this and other considerations that may be identified.

For consistency of terminology and clarity, the following change is recommended:

- In Section 18700(d), replace, "...designated, the contribution shall be allocated among the designees on a pro rata basis." with "...designated, the contribution shall be allocated *equally* among the designees on a pro rata basis."

Policy Considerations

None noted.

LEGISLATIVE HISTORY

AB 241 (Tangipa, 2025/2026), under the AFITL, would create the Wildfire and Vegetation Management Voluntary Contribution Fund that would appear on the state personal income tax return from tax year 2025 to 2031. This bill is currently in the Assembly Revenue and Taxation Committee.

AB 703 (Lee, 2025/2026), under the AFITL, would create the California Pediatric Cancer Research Voluntary Contribution Fund that would appear on the state personal income tax return from tax year 2025 to 2032. This bill is currently in the Assembly Appropriations Committee.

AB 1983 (Maienschein, Chapter 234, Statutes of 2024), under the AFITL, established the Prevention of Animal Homelessness and Cruelty Voluntary Tax Contribution Fund that will appear on the personal income tax return from 2024 to 2034.

AB 511 (Dixon, Chapter 265, Statutes of 2023), under the AFITL, established the California ALS Research Network Voluntary Tax Contribution Fund that will appear on the personal income tax return from 2024 to 2031.

AB 3051 (Muratsuchi and Rivas, 2023/2024), under the AFITL, would have established the California K–12 Climate Change Education Voluntary Tax Contribution Fund and would have allow a taxpayer to make a voluntary contribution on their personal income tax return. AB 3051 did not pass out of the Assembly by the constitutional deadline.

PROGRAM BACKGROUND

OTHER STATES' INFORMATION

None noted.

FISCAL IMPACT

The FTB's costs to implement this bill have yet to be determined. As the bill moves through the legislative process, costs will be identified.

ECONOMIC IMPACT*Revenue Estimate*

This bill would result in the following revenue loss:

Estimated Revenue Impact of AB 829 as Introduced February 19, 2025
Assumed Enactment after June 30, 2025

Fiscal Year	Revenue
2025-2026	\$0
2026-2027	-\$6,000
2027-2028	-\$6,000

This analysis does not account for changes in employment, personal income, or gross state product that could result from this bill or for the net final payment method of accrual.

Revenue Discussion

This bill would add the Parkinson's Disease Research Voluntary Tax Contribution Fund on the state's personal income tax return. The estimate assumes that the fund would receive the minimum contribution amount of \$250,000 each year.

Approximately 35 percent of taxpayers who contribute to voluntary contribution funds itemize their deductions. It is estimated that the average tax rate for these taxpayers would be 7 percent, resulting in an estimated revenue loss of approximately \$6,000 annually.

Contributions would be made in 2026 when the 2025 tax return is filed. Subsequently, the deduction for the contribution would be claimed on the 2026 tax return filed by April 15, 2027; therefore, the revenue impact would occur in fiscal year 2026-2027.

The tax year estimates are converted to fiscal year estimates and then rounded to arrive at the amounts reflected in the above table.

LEGAL IMPACT

Greater Fresno Parkinson's Support Group
Parkinson Association of Northern California
Parkinson's Association of San Diego

Opposition

None on file.

ARGUMENTS

Assembly Committee on Health, dated April 4, 2025.

Proponents

The bill is supported by the Michael J. Foxx Foundation for Parkinson's Research (MJFF), noting in part:

Over one million Americans and 120,000 Californians live with Parkinson's disease, which costs the state over \$5 billion annually in direct and indirect costs. MJFF continues that even though Parkinson's disease is the second most common, and fastest growing, neurological disease, research for Parkinson's treatments and cures is underfunded compared to other diseases. While other neurodegenerative diseases receive billions in funding research from the federal government each year, Parkinson's only receives a couple hundred million. MJFF notes that this bill creates a grant program within DPH with revenues collected from donations to support research and services for Parkinson's patients. MJFF further notes that this bill adds Parkinson's disease to the existing list of items on the California tax return where people can voluntarily contribute

to their issue of choice. MJFF continues that bill creates the California Parkinson's Disease Research Fund to receive public and private donations which will fund research and services benefitting Parkinson's patients in the state. MJFF concludes that this bill will benefit Parkinson's patients throughout California.

Opponents

None on file.
