

Bill Analysis

Author: Caballero

Bill Number: SB 785

SUBJECT

Durable Medical Equipment Tax Credit

SUMMARY

This bill, under the Personal Income Tax Law (PITL), for taxable years beginning on or after January 1, 2026, and before January 1, 2031, would allow a tax credit for purchases of durable medical equipment.

REASON FOR THE BILL

The reason for the bill is to provide financial relief by creating a tax credit for durable medical equipment prescribed by a licensed health care provider for use by those under the age of 18 years with complex medical conditions.

ANALYSIS

This bill, under the PITL, for taxable years beginning on or after January 1, 2026, and before January 1, 2031, would allow a tax credit for an amount equal to 50% of the amount paid or incurred by a taxpayer during the taxable year for qualified expenditures. The credit would be limited to \$5,000 per taxable year for each qualifying dependent.

This bill would provide the following definitions:

“Complex medical conditions” include, but are not limited to, conditions where an individual would be eligible for early and periodic screening, diagnosis, and treatment services, as described in the Welfare and Institutions Code, relating to Medi-Cal benefits.

“Durable medical equipment” has the same meaning as that term is defined in Title 42 of the United States Code, for example, iron lungs, oxygen tents, hospital beds, and wheelchairs.

“Qualified expenditure” means an unreimbursed expense paid or incurred by the taxpayer for the purchase of durable medical equipment for use by a qualifying dependent.

“Qualifying dependent” means a dependent of the taxpayer who has one or more complex medical conditions and is younger than 18 years of age as of the first day of the taxable year.

Unused credits may be carried over for eight years until the credit is exhausted.

The bill specifies that any deduction otherwise allowed for a qualified expenditure would be reduced by twice the amount of this allowed credit.

This credit would be taken in lieu of any other credit that the qualified taxpayer may otherwise claim with respect to amounts taken into account in calculating the credit allowed by this bill.

This credit would be repealed on December 1, 2031.

The bill, for purposes of complying with the Revenue and Taxation Code (RTC) section 41, would require the Franchise Tax Board (FTB) to provide a written report to the Legislature no later than July 1, 2028, and annually thereafter, that would include the following information:

- The number of taxpayers that were allowed a credit, and
- The total dollar amount of credits allowed.

The Section 41 reporting requirements would be treated as an exception to the general prohibition against disclosure of confidential taxpayer information.

Effective/Operative Date

As a tax levy, this bill would be effective immediately upon enactment, and specifically operative for taxable years beginning on or after January 1, 2026, and before January 1, 2031.

Federal/State Law

Existing federal and state laws provide various tax credits designed to provide tax relief for taxpayers who incur certain expenses (e.g., child adoption) or to influence behavior, including business practices and decisions (e.g., research credits or hiring credits). These credits generally are designed to provide incentives for taxpayers to perform various actions or activities that they may not otherwise undertake.

Currently, there is no federal or state credit comparable to the credit this bill would create.

Section 41

Under existing state law, legislation that would create a new tax expenditure, which includes a credit, deduction, exemption, or any other tax benefit as provided for by the state, is required to include specific goals, purposes, objectives, detailed performance indicators and data collection requirement measures to allow the Legislature to evaluate the effectiveness of the tax benefit. Legislation that would create an income exclusion is not required to provide detailed performance indicators and data collection requirement measures if the Legislature determines there is no available data to collect and report.

LEGISLATIVE HISTORY

AB 547 (Tangipa, 2025/2026), under the PITL, would have allowed taxpayers a credit up to \$5,000 for the qualified expenses of in vitro fertilization for taxable years beginning on or after January 1, 2025, and before January 1, 2030. This bill did not pass out of the Assembly by the deadline.

AB 691 (Wallis, 2025/2026), under the PITL, for taxable years beginning on or after January 1, 2025, and before January 1, 2030, would have provided a taxpayer a credit for qualified pet adoption costs and a credit for qualified pet medical expenses paid or incurred. This bill did not pass out of the Assembly by the deadline.

AB 1431 (Tangipa, 2025/2026), under the PITL, for each taxable year beginning on or after January 1, 2025, and before January 1, 2032, would have allowed a tax credit to a qualified taxpayer for moneys paid by an employer for medical services performed in a rural area in the state by the qualified taxpayer and authorized under the qualified taxpayer's license. This bill did not pass out of the Assembly by the deadline.
